

### Mock Interviews

In a group of 3 each person will be assigned a number either #1, #2, or #3. You will take turns being interviewed, being the interviewer, and taping the mock interview. After each group is finished with the mock interview process, you will watch the interviews together and evaluate how each person did. Remember this is a learning process and it takes lots of practice. Give only constructed criticism.

Evaluation form: Rate each person from 1 to 10 (10 being the highest) on how well they did during the interview.

Person Being Interviewed	First Impression (rate 1-10)	Confidence (rate 1-10)	Answered Questions Appropriately (rate 1-10)	Overall total (Total Possible 30)	What was really good about the interview	What could have been better?	Additional Comments
