

Lesson 4: Lamb and Mutton

Name _____

Yield Grading

Objective: Determine the yield grades of ovine carcasses given the necessary parameters.

Calculate the yield grades of the following ovine carcasses.

Formula: $.4 + (10 \times \text{adjusted fat measurement}) = \text{yield grade}$

Carcass #	Adjusted Fat Measurement	Yield Grade
1	.4	
2	.25	
3	.1	
4	.15	
5	.22	
6	.31	
7	.5	
8	.16	
9	.12	
10	.18
