

Unit V — Plant Propagation

Student Handout

1. Your instructor will provide a plant from your school's greenhouse for you to propagate.
2. Determine the correct propagation method, propagate your plant, and write a procedure for the method you used. The written procedure should cover the following topics:
 - Statement of the method used
 - List of the materials needed
 - Steps for the propagation method
3. Turn the planted cutting and written procedure in to the instructor.
4. **Your final assessment score will be based on the content of the written procedure and the quality of the propagated plant specimen. Spelling, grammar, punctuation, and capitalization will also be factors in the assessment.**
