

MATRICES FOR GRADE LEVEL EXPECTATIONS

The matrices for the Grade Level Expectations (GLE) appear as single-page documents. Each page lists the GLEs for the Comprehensive Guidance Program Strands--Personal and Social Development, Academic Development, and Career Development--by grade level. The grade level divisions are: Elementary -- K-2 and 3-5; Middle School/Junior High -- 6-8; and High School--9-12; thus, on a single page, the reader will be able to view the GLEs for each Big Idea/CG Content Standard by grade level. Format of Matrices:

Columns: The FIRST column of each matrix identifies the K-12 concepts; the remaining columns list the GLEs for a specific grade level (e.g. GLE K = GLEs for Kindergarten; GLE 1 = GLEs for grade 1)*.

*ALL GLEs are coded as “ai” for ease of electronic access to materials. This is parallel to the other content areas – some of which have more than one GLE per concept, per grade level

Rows: The rows represent the developmental sequence of the Concepts via the GLEs for each 12th grade outcome.

Reading **down the columns** of EACH matrix provides a bird’s eye view of all GLEs for a single grade level.

Reading **across the rows** of ALL matrices provides a bird’s eye view of the K-12 sequential development of knowledge, skill and understanding for each 12th grade outcome.
