Lesson Measurable Learning Objectives:
The student will complete a career inventory to identify at least one career of interest.

Lesson Formative Assessment (acceptable evidence):
Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc. The student will complete a career interest survey, identify careers within the Career Cluster of their choice and apply information to individual exploration of the World of Work.

Lesson Preparation

Essential Questions:
How do interests and goals fit together?

Engagement (Hook):
Counselor shares by modeling his/her own interests by sharing a completed interest inventory and how the results fit his/her career choice.

Procedures

selected interest inventory and explain directions OR direct students to online inventory.

2. Counselor observes and helps students complete inventories.

3. Help students score and find careers that match their interests.

4. Have students share results with a partner. (Be sure to consider students’ privacy rights – review school board policy and allow students the choice of whether or not to share results with another person.)

5. As students review the results of the Interest Inventories, have them identify at least one career of interest. Partners will interview each other about their career of interest. Instruct students to introduce partners to the class as a worker in the career and career cluster of their partner with the class.

2. Students may be using a pencil/paper inventory or an online inventory. They will be reading directions. Students complete surveys.

3. Score and find career/interest matches.

4. Students work with a partner and share their results with each other (as appropriate).

5. Students will take turns sharing their partner’s choices.

Teacher Follow-Up Activities
Have students write a paper on how their personal interests compare to their career choice.

Counselor reflection notes (completed after the lesson)
