Course Code: 096828

COURSE INTRODUCTION:

Course Description: Human Development is an introductory course for students interested in careers in human and community services and other helping professions. Areas of career exploration include family and social services, youth development, and adult and elder care. The course focuses on basic human developmental and behavioral characteristics of the individual within the context of the family. The content is based on the Family and Consumer Sciences National Standards for Human Development and includes instruction in the conditions that influence human growth and development; strategies that promote growth and development across the life span; and the study of family systems. Research and development, interdisciplinary projects, and/or collaboration with postsecondary faculty, community agencies and/or organizations, or student organizations are appropriate approaches. This course provides the foundation for continuing and post-secondary education in all career paths within the human services cluster: early childhood development and services; family and community services; consumer services; personal care services; and education and training.

Course Rationale:

To assist Missouri citizens in preparing for success in family and career life, competencies in the Human Development course taught in Family and Consumer Sciences (FCS) education programs enable students to:

- a) construct meaning and acquire skills related to human development;
- b) analyze influences and factors impacting human growth and development;
- c) analyze careers related to human development;
- d) and utilize leadership, problem-solving, and communication skills to assume roles as responsible family members and citizens.

Guiding Principles:

Integrating Processes of Thinking, Communication, Leadership, and Management In Order To Apply Human Development Knowledge And Skills.

1. Demonstrate components of critical thinking, creative thinking, and reasoning.
2. Evaluate effective communication processes in school, family, career, and community settings.
3. Demonstrate leadership that encourages participation and respect for the ideas, perspectives, and contributions of group members.
4. Apply management, decision-making, and problem solving processes to accomplish tasks and fulfill responsibilities.
5. Examine the interrelationships among thinking, communication, leadership, and management processes to address family, community, and workplace issues.
6. Demonstrate fundamentals to college and career success (e.g., strong work ethic, time-management, positive attitude, adaptability/flexibility, stress resilience, accountability, self-discipline, resourcefulness, cooperation, self-assessment).
7. Utilize FCCLA programs and activities to facilitate the growth and human development throughout the lifespan.

Course Essential Questions:

1. What are the basic human developmental and behavioral characteristics of the individual within the context of the family?
2. How do family systems impact on the development of the individual throughout the life span?
3. What are the human development challenges of working in diverse communities?

Resources@MCCE - E TSS 36.1 - A Young Mind in a Growing Brain - Jerome Kagan and Norbert Herschkowitz, MAHWAH, NJ, LAWRENCE ERLBAUM ASSOCIATES, 2005. The authors summarize some initial conclusions that follow simultaneous examination of the psychological milestones of human development during its first decade and what has been learned about brain growth. This volume proposes that development is the process of experience working on a brain that is undergoing significant biological maturation. Experience counts, but only when the brain has developed to the point of being able to process, encode, and interact with these new environmental experiences.

Resources@MCCE - CS 20.0106 B65 - Family and Individual Health - Jeanette Brown, Regina Rainey, Jane Wolff, Victoria Shahan, COLUMBIA, MO, INSTRUCTIONAL MATERIALS LABORATORY, 1999. This curriculum guide is the third in a series featuring critical-thinking activities and practical problem-solving assessment ideas. The guide includes 4 process skills aligned to the Missouri Show-Me standards and 10 content modules aligned to the Missouri Show-Me Standards, FACS National Standards, and the National Health Education Standards. Content units cover topics such as Promoting Individual Wellness, Enhancing Human Growth and Development, Promoting Nutritional Health, Maintaining a Safe Environment, and Accessing Health-Related Information.
