

Risk and Rewards of Owning your own Business

Est. Time: 35 minutes

Students should read the following two articles.

<http://life.familyeducation.com/employment/personal-finance/47254.html>

<http://www.sessions.edu/notes-on-design/people/design-careers/starting-a-business-risks-and-rewards/>

When finished draw out a two column table. At the top of the columns write Risk and Rewards. Under each heading, list all the risks and rewards involved in running your own business.

When everyone is finished there will be a class discussion on the Risks vs Rewards. After the discussion, students should compose 2-3 paragraphs of self-evaluation and for themselves and their personality would the risks be worth the rewards.
