

Computer Information Systems Class Video Presentation

Working in your group, design out two video PSAs. One PSA should be serious, the other should be humorous. You need to create storyboards, script, and shot list for each video. Your shot list and storyboards are attached to this packet. Please put your script in one of the z: drives and name it SeriousPSAScript and FunnyPSAScript.

You will need to put the names of everyone on this document and turn in for grading. Please circle the name of the student who's z: drive has the scripts. Below is the grading concepts for this assignment.
