### Activity 2 Materials (include activity sheets and/or supporting resources)

- Food (Optional)
- *Color Candy Ice-breaker* (Optional)
- Candy (Optional)
- New Student Club Survey

### Activity 2 Assessment

Complete the New Student Club Survey at the last monthly meeting.

### Activity #1 Description & Procedures

Professional School Counselor (PSC) trains students to serve as hosts for new students. Hosts are both male and female who volunteer to assist new students as they become familiar with the environment of a new school.

The New Student Club meets monthly for social activities including going out for pizza and playing ice-breaker games (*Color Candy Ice-breaker*). Since the club attracts a wide-variety of students, the PSC uses judgment in determining whether any given student should be allowed to mentor new students or simply attend the monthly meetings.

As new students are enrolled and course selection is in progress, they are linked with their host student on their first official day of enrollment. The process for Day 1 is as follows:
1. Host student and new student meet in the counseling office before school begins.
2. The host student (matched by grade level and gender) brings the new student to the host classes for the day. The new student is introduced to the host student’s friends and teachers and begins to be exposed to the school environment, curriculum, and procedural mechanisms (e.g., going to his/her locker, lunch room, bathroom, etc.). The new student can ask questions throughout the day.
3. At the close of the day, the host and new student return to the counseling office (15 min. prior to school ending) to review the day with the counselor and clarify questions and concerns.

The Day 2 procedure is as follows:

1. Host and new student meet in the counseling office before school begins.
2. Host student escorts the new student to the new student’s 1st period class, then proceeds to his/her own classroom. At the end of 1st period, the host meets the new student outside the new student’s classroom and escorts him/her to the new student’s 2nd period class (then proceeds to his/her own 2nd period class). This process continues throughout the day.
3. At the close of Day 2, the host and new student again return to the counseling office for another meeting with the Professional School Counselor to ensure that all questions have been answered and that the new student is ready to proceed the following day without support of the host.

On Day 3, the new student proceeds to his/her classes independently.

Activity assignment: Each month the counselor encourages the new students to share the information they learned with parents or guardians.

**Activity # 3 Follow-Up Activities (Optional)**

PSC follows up with the new students and hosts at the monthly New Student Club meetings. PSC periodically calls the new student’s parent or guardian to discuss progress and address questions or concerns they may have.

**Activity 3 Counselor reflection notes (completed after the activity)**

*STUDENT LEARNING: How will students’ lives improve as a result of what happened during this activity?*

*SELF EVALUATION: How did I do?*

*IMPLEMENTATION PROCEDURES: How did the activity work?*
**Color Candy Ice-breaker**

Professional School Counselor (PSC) informs the students that they are going to be receiving some candy but that they cannot eat it until they are instructed. PSC distributes 5 pieces of candy to each student. PSC then states that the students will be sharing information about themselves based on the color of candy they received. PSC goes through the candy guide with the students.

- **Yellow/white** share something that they are good at doing
- **Pink/red** share something that makes them mad
- **Green** share something that they love to do
- **Blue** share something that makes them sad
- **Orange** share something about their family

Each student picks one of his/her pieces of candy and shares something about himself/herself based on the color chosen. Each group member shares one bit of information. This is repeated until all students in the group have shared 5 things about themselves with the group.

By sharing information, group members get to know each other better. They also realize some of the differences and similarities that they have with other group members.

Share one thing you’ve learned about someone you’ve met today with your classroom teacher or parent.
