

Lesson 6: Herd Management

Name _____

Herd Management Calendar

Objective: Plan a herd management calendar.

Suppose that you have been asked to manage a herd of 100 cows. The producer currently allows bulls to run with the cow herd all year, and the cows calve year round. The producer has been noticing a decrease in the number of calves born over the last several years and has had problems putting together large sets of calves that are similar in size for sale.

Using the table provided, form a detailed plan for managing the herd more effectively. Give dates where applicable.
