

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self-efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

<p>UNIT DESCRIPTION: The Successful Student</p> <p>Students will participate in group discussions involving self-management skills, study skills, learning styles, goal-setting, and test-taking strategies. 6th Grade lessons include strategies that help students explore the characteristics and skills of successful learners and strategies designed to help students identify their learning styles. 7th Grade lesson is designed to help students become familiar with the purposes Self-Management Skills, Study Skills and Test-taking Skills. 8th Grade: As a summative activity, students will evaluate their current management, study, and test-taking skills using the survey and performance activity, <i>Getting Your Grades Together</i>.</p> <p>NOTE: The counselor/instructor has some latitude with this unit. Others may wish to introduce this activity at the beginning of 6th grade and again at the conclusion of 8th grade. Still others may use this survey throughout the middle school process. The short-answer and essay questions are designed for the post-test phase at the end of 8th grade, but may be omitted when using the survey for earlier grades.</p> <p>The counselor/instructor may want to use the survey information to work with at-risk students to discuss student perceptions versus student performance.</p>		<p>SUGGESTED UNIT TIMELINE: 4 Lessons</p> <p>CLASS PERIOD (min.): 45 minutes each</p>
