Unit Essential Questions:

How do people develop habits?

Unit Measurable Learning Objectives:

The student will evaluate personal study skills, using the *Personal Study Skills and Habits Review Survey* and *Study Skills Tip Sheet*.

The student will identify at least one study skill habit, which he/she views as a personal strength.

The student also will identify at least one study skill habit to improve upon in order to reach his/her goals.

The student will complete a personal master calendar for the current school year.

Using standardized test score reports, the student will evaluate personal academic strengths and weaknesses.

The student will list at least three ways he/she will use test information to improve academic skills and standardized test scores.

The student will apply the concept of time management by identifying his/her top four priorities/commitments; creating list of priorities/commitments; and identifying strategies for making sure priorities/commitments are scheduled.

The student will compose a paragraph in which he/she identifies the post-secondary option he/she intends to pursue and identifies the steps needed to attain that goal.

The students will adjust high school planning to conform to post-secondary goals.

The student will write a personal essay in which he/she will consider and analyze the skills he/she has developed during his/her school experience to help him/her be a life-long learner.

The student will review and evaluate his/her *Personal Plan of Study* and credit check to ensure progression toward meeting graduation requirements and post-secondary goals.

Unit Instructional Strategies/Instructional Activities:

- X Direct (Structured Overview, Compare & Contrast, Demonstrations)
- X Indirect (Problem-Solving, Inquiry, Reflective Discussion, Writing to Inform, Concept Attainment)
- X Experiential (Role-Playing, Surveys)
- X __ Independent Study (Essays)
- X Interactive Instruction (Role-Playing, Discussion, Think/Pair/Share, Problem-Solving)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

The 3-part summative evaluation for the "Learning for Life" Unit is conducted in the 12th grade. The assessment is a culmination of the work that students have completed in prior grades and encourages students to reflect and project regarding the knowledge and skills required to successfully achieve their goals and continue as life-long learners. This evaluation is located at the end of the 12th grade lesson.

Brief Summary of Unit:

This unit will continue to develop and evaluate students' self-management, study and test-taking skills that they have obtained during their educational career. These skills will enable them to become life-long learners.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

It will be important for the students to be familiar with self-management, goal-setting, study and test-taking skills. They will need the ability for apply self-assessment processes.

The student will identify at least one study skill habit which he/she views as personal strength(s). The student will also identify at least one study skill habit to improve upon in order to reach his/her goals.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Assessment for this lesson will be through observation of individual student participation in class discussions. The counselor will monitor the quantity and quality of contributions of individuals. The counselor may choose to collect student checklists to identify individuals that need assistance with specific study-skill strategies.

Lesson Preparation

Essential Questions:

Do personal habits influence study habits?

What are my strongest study-skill strategies?

What study-skill strategies do I need to improve in order to be successful in high school?

Engagement (Hook):

Discussion of personal habits, both effective and ineffective. Transition this into a discussion of ways personal habits influence the development of effective study habits.

Procedures

Instructor Procedures/Instructional Strategies:

1. Counselor will begin the class with the question, "What is a habit?" This question may be placed on an overhead, chalkboard or asked verbally. This will lead to a discussion about habits both positive and negative. The counselor will need to keep the discussions about positive and negative habits appropriate.

Student Involvement/Instructional Activities:

1. Students will respond with their definition of a habit. Students will also offer examples of both positive and negative habits.

- 2. Counselor will transition this discussion into personal study-skills habits/strategies. The counselor will ask, "Do you use study-skills habits?" Allow for the students to give responses and place those responses on an overhead or chalkboard; facilitate a brief discussion about how these habits/strategies were developed and/or learned.
- 3. The counselor will then pass out the *Personal Study Skills* and *Habits Review Survey*. Allow time for the students to complete both the survey and the questions at the end of the survey.
- 4. After the students have completed the survey and questions, facilitate a class discussion about the study-skills habits students consider to be their strongest and the study-skill habits students consider to be their weakest.

(**NOTE:** This may need to be the start of the second day)

- 5. Pass out the *Study Skills Tip Sheet*" to all students. The counselor will go over the tips sheet with the students. He or she will explain that these tips along with the studyskill habits they are already using will help them be successful in high school. It should also be noted that weaker studyskills habits can be developed to be more successful. The counselor will instruct students to read *Study Skills Tip Sheet* and highlight, underline or circle tips they will implement in order to successfully achieve their goals in high school.
- 6. The counselor may choose to collect the student's survey sheet. These surveys may be used to identify students who need individual or small group sessions to strengthen positive study-skills habits. The completed surveys will be maintained in

- 2. Students will tell a partner about the study-skill habits/strategies they developed before coming to high school. (Variation: In groups of 4 or 5, students will create "posters" depicting study skills that have been helpful in their prior learning situations)
- 3. Students will complete the *Personal Study Skills and Habits Review Survey* and answer the questions at the end of the survey.
- 4. Students will participate in the class discussion and offer personal insights as to their strong study-skill habits and ones they may need to improve in order to achieve their goals.
- 5. Students should read over the *Study Skills Tip Sheet* and identify the tips they will begin using.

6. Students will turn in their survey sheets to the counselor.

students' portfolios (or other storage	
system).	

Teacher Follow-Up Activities

A possible follow-up activity for the classroom teacher would be to choose one study-skill habit/strategy that a majority of students indicated as "weak" and implement that strategy in the classroom. The classroom teacher could spend some time teaching that study-skill habit to the students in his/her classroom.

Another possible classroom follow-up activity would be to have a question on the next test that asks the students to list the study-skill habits/strategies that they used to prepare themselves for the test. They could also have a classroom discussion while going over the test that would include how students studied for the test and identify the habits that provided the best test results.

An additional possible follow-up activity would be for the classroom teachers to introduce a new study-skills habit/strategy at the beginning of each unit. The classroom teacher could stress the importance of using the new habit/strategy as well as others to study and review materials for the unit test.

Study Skills Tip Sheet

Name:	Grade:	Date:
-------	---------------	-------

General Study-Skill Tips:

- 1. Set up a daily time and place to study.
- 2. Write down homework assignments, tests and project along with due dates.
- 3. Review your notes and handouts on a daily basis.
- 4. Begin intensive test preparation. Study everyday as if you have a test the next day.
- 5. Always look for new study-skills habits/strategies that may work for you!

Note-Taking Tips:

Good note-taking habits can improve your ability to learn and shorten the time needed to prepare for a test!

- 1. Listen carefully to the teacher.
- 2. Always write down things the teacher:
 - a. Writes on the board or overhead.
 - b. Says are important to remember.
 - c. Says over and over and over again.
- 3. Take your notes in outline form and write clearly!
- 4. Always put examples, page numbers or reminders next to your notes.
- 5. Leave room on your paper to expand or add to your notes after class.
- 6. Read over your notes as soon as possible after class.

Textbook Reading Tips:

Being able to read for content and take notes out of your textbook will allow for you to better understand big ideas and the vocabulary of the unit you are studying.

- 1. Get the "Big Picture" first. This means glancing through the chapter headings and subheadings.
- 2. Skim pages if you are looking for a general idea.
- 3. Read slowly if you are looking for details.
- 4. Read the summary paragraphs at the end of each section or chapter to get the general idea.
- 5. Use the SQ3R system (this system is best used over a period of a few days):
 - a. Skim: Skim the chapter before reading it. Be sure to pay attention to all pictures, charts, and diagrams.
 - b. Question: After skimming the chapter, write down two or three questions about the chapter or section.
 - c. Read: Read the chapter carefully while taking outline notes of what you are reading.
 - d. Review: Review your notes and use them to answer the questions you developed after you skimmed the chapter ("b" above).
 - e. Recite: Quiz yourself over the main concepts of the chapter.

Test-Taking Tips:

Using these tips will help you be more confident when taking your test and will help alleviate symptoms of test anxiety.

- 1. Before the test:
 - a. Have several study sessions prior to the test day.

- b. Do not cram the night before!
- c. Anticipate/predict test questions. Creating a practice test can help with this.
- d. Complete any review sheets a teacher gives you.
- e. Review all notes, outlines, note cards, quizzes and/or review sheets for the current test materials.
- f. Take a deep breath before entering the classroom and tell yourself that you will do well because you have prepared well.

2. During the test:

- a. Relax and take slow deep breaths if you need to calm yourself down.
- b. Look over the entire test first.
- c. Manage your time so that you are able to complete all sections.
- d. Read all directions very carefully.
- e. Answer questions you know first.
- f. Circle questions you can't answer; go back and answer them last.
- g. Review all your answers before turning in your test.

3. After the test:

- a. Read any comments made by your teacher.
- b. Correct any wrong answers so you can use the test as a way to learn more about a subject...AND to study for finals.
- c. Talk with your teacher if you have any questions about an answer.

Short Hand Tips:

Developing a short hand or abbreviation system will allow you to take notes in less time.

- 1. Abbreviate words by:
 - a. Dropping middle letters such as "cont'd" (continued).
 - b. Dropping endings of words such as "Oct." (October).
- 2. Use common symbols such as:
 - a. i.e. -- for "that is"
 - b. e.g. -- for "for example"
 - c. w/ -- for "with"
 - d. w/o -- for "without"
- 3. Develop your own common symbols for words that you use frequently in note taking.

Tips for Keeping Focused while Studying:

Keeping your body healthy and alert will make studying much easier and allow you to retain more information.

- 1. Take a short break. Get up and do something after studying for long periods of time. Stretch, take a walk, or get something to eat or drink.
- 2. After your break, go back to studying. Review your notes to get a fresh start on your subject.
- 3. Get plenty of sleep.
- 4. Eat a balanced diet.
- 5. Exercise regularly.
- 6. Take time out for fun!

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Students list or discuss possible ways to improve their test scores.

Lesson Preparation

Essential Questions:

How do study strategies lead to \$\$ (dollars) for post-secondary education? What study strategies do I use in order to best prepare myself for standardized test?

Engagement (Hook):

Counselor leads a discussion of what programs colleges and universities use as their minimum cut off scores on standardized tests for scholarship money. Counselors can also bring in scholarship applications listing the criteria for earning those scholarships. Be sure to pay careful attention to the standardized test score requirements.

Procedures

In	structor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:		
1.	Counselor will present the minimum cut off scores for scholarship money as well as criteria for specific scholarships available.	Students will observe and look over the scholarship information.		
2.	Students' individual score reports will be handed out.	2. Students will look over their score reports.		

3.	Counselor will begin a discussion about individual score reports. The use of the <i>PLAN</i> PowerPoint or <i>PSAT</i> DVD presentation may be used to enhance information.	3.	Students participate in the discussion.
4.	Counselor will discuss using individual test results to identify academic strengths and weaknesses. This knowledge will be used to develop a plan for improving academic skills as well as their standardized test scores.	4.	Students will offer input as to ways to improve their own academic skills and standardized test scores.
5.	Introduce websites (listed above in the Materials section) for students to visit.	5.	If computers are available, students may access the test- prep websites. If not, test prep information from the test publisher may be given distributed to students.
6.	Counselor will ask students to list at least 3 ways they will use knowledge about the importance of test scores and their individual results to help them improve their academic skills and their standardized test scores.	6.	Students will list at least 3 ways they will use their test information to help themselves improve their academic scores and their standardized test scores.

Teacher Follow-Up Activities

Teachers can post notices listing upcoming testing dates for standardized tests.

Core area teachers may choose to put together a Prep Course in order to work with students to improve their academic skills and to improve their standardized test scores.

Lesson Measurable Learning Objectives:

The student will apply the concept of time management by identifying his/her top four priorities/commitments; creating list of priorities/commitments; and identifying strategies for making sure priorities/commitments are scheduled.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Students will create a list of their top 4 time priorities/commitments.

Lesson Preparation

Essential Questions:

How do I avoid time conflicts in my daily schedule? What are my priorities?

Engagement (Hook): Role play an argument between the teacher and counselor in which one of them plays the role of the student and one plays the role of the teacher. The argument will center on the following scenario:

The student approaches the teacher wanting to miss a very important club/activity meeting after school due to the student having to work. The teacher will inform the student that missing the meeting means he or she will be kicked out of the club/activity due to too many absences. The student will get upset and storm away from the teacher.

This hook is designed to show students how lack of planning may set them up for conflicts.

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Students will engage in a self-assessment of the alignment of graduation requirements, post-secondary goals with the courses they have completed and the grades they have earned to make sure they will graduate on time.

Lesson Preparation

Essential Questions:

What do I still need to do in high school to be successful and attain my goals after graduation?

Engagement (Hook): Have students write a short paragraph that, in general, states what they will be doing after graduation. Have volunteers share their information with the class. Ask those students who shared to explain how they will go about doing what they wrote about.

Procedures

Instructor Procedures/Instructional Strategies:

- 1. Ask volunteer students to describe how they plan to achieve graduation goals.
- 2. Discuss the possible options students have after graduation. Four-year College/University, Two-year College/Technical School, Work, and the Military. Ask students to indicate, if they have not already, which one of those areas they are planning on going into after graduation.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

The 3-part summative self-evaluation for the Learning for Life Unit is conducted in the 12th grade. The assessment culminates the work that students have completed in prior grades and encourages students to reflect and project regarding the knowledge and skill required to successfully achieve their goals and continue as life-long learners. The assessment follows this lesson. It may be photocopied for your students' use.

Lesson Preparation

Essential Question: How do time management, study, and test-taking skills influence life long learning and your attainment of personal goals?

Study Skills -Show Me. (watch for students' ratings)

Testing Taking Skills - Show Me. (watch for students' ratings)

Procedures

Instructor Procedures/Instructional Strategies:

- 1. The counselor will give each senior Part One of the *9-12 Summative Self-Evaluation for AD 4.* Part One allows for each senior to rate himself or herself in the areas of time management, study skills, and test-taking skills.
- 2. The counselor will lead a brief discussion of the skills that were rated as the highest and which were rated as the lowest.
- 3. The counselor will administer Part Two of the 9-12 Summative Self-Evaluation for AD 4. Part Two allows each student to identify and discuss situations in which specific skills were used and situations in which he or she didn't have the specific skills to be successful.
- 4. The counselor will lead a brief discussion about skills successful learners use. During the discussion, stress the need to continue to maintain strong skills as well as develop weaker skills in order to be a successful life-long learner.
- 5. The counselor will administer Part Three of the *9-12 Summative Self-Evaluation for AD 4*. Part Three encourages learners to project how they will use the three skill areas (Time Management, Study Skills, Test-taking Skills) to achieve post-secondary goals and life-long learning.
- 6. The counselor will work with the Communication Arts teacher to devise a possible grading system for the personal essays. It is recommended that the counselor collect the students' *AD 4 Summative Self-Evaluation*, copy them and place one in the student's permanent folder

Student Involvement/Instructional Activities:

- 1. Students will rate themselves *Good*, *Average*, or *Poor* for 27 skills they have learned throughout their educational experience.
- 2. In pairs students will describe their strongest and weakest skills and discuss the implications for their success with their partners.
- 3. Students will give examples of times in which they used their stronger skills to be a successful learner as well as times they were not successful because their skills were not as strong or were not acquired. Students will complete a chart on which they list skills that will be important to them for their post-secondary choices.
- 4. Students will volunteer responses during the discussion and brainstorm possible ways to improve their weaker skills.
- 5. Students will write a personal essay in which they hypothesize how the skills they have learned in their educational experience will help them achieve their post-secondary goals and continue to be a lifelong learner.
- 6. Students submit their completed *AD 4*Summative Self-Evaluation, so the counselor can copy them and return the original to student.

Grade Level/Course Title: 9-12 / AD4-Gr9-12-Unit1 Course Code: Academic Development

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing "academic self efficacy." This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

UNIT DESCRIPTION: Learning for Life

This unit will continue to develop and evaluate students' self-management, study and test-taking skills that they have obtained during their educational career. These skills will enable them to become life-long learners.

SUGGESTED UNIT TIMELINE: 6 (2 lessons each for grades 9, 10;

1 lesson each for grades 11, 12)

ASSESSMENT DESCRIPTIONS*:

The 3-part summative evaluation for the "Learning for Life" Unit is conducted in the 12th grade. The assessment is a culmination of the work that students have completed in prior grades and encourages students to reflect and project regarding the knowledge and skills required to successfully achieve their goals and continue as life-long learners. This evaluation is located at the end of the 12th grade lesson.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing "academic self efficacy". This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Unit Essential Questions:

What happens if I change my goals?

Unit Measurable Learning Objectives:

The student will complete *Graduation Requirements Review* activity sheet.

The student will compute his/her individual GPA.

The student will determine through transcript review, what actions and/or revisions need to occur in order to reach post-secondary goal.

The student will review and revise personal plan of study to determine career path/cluster and related coursework.

The student will complete one or more sample application(s) for post-secondary programs.

The student will establish an individual calendar of important dates related to personal plans of study.

The student will complete Personal Plan of Study Review for Seniors.

The student will write a letter to his/her future self about goals and planning for the future.

Unit Instructional Strategies/Instructional Activities:

X Direct (Lecture; Explicit Teaching; Compare & Contrast; Demonstrations; Guided & Shared-Reading, Listening, Viewing, Thinking)

- X Indirect (Problem Solving)
- X Experiential (Simulations; Surveys)
- X Independent Study (Journals; Learning Activity Sheet; Learning Contracts; Research)
- X Interactive Instruction (Peer Partner Learning)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Students will use graduation requirements, assessments, transcripts, educational, and career interests to review, revise, and implement Personal Plan of Study for lifelong learning.

Brief Summary of Unit:

Students will monitor and revise Personal Plan of Study written before high school. Course description booklets, transcripts, assessments and personal interest will be used for continued review and revisions of personal education plans. By the end of 12th grade, plans will have been revised and fully implemented for life-long learning.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Knowledge of a Personal Plan of Study, number and types of credits required for graduation

Grade Level/Course Title: Gr 9-12 / AD6-Gr9-12-Unit1 Course Code: Academic Development

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing "academic self efficacy". This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

UNIT DESCRIPTION: My Personal Plan of Study

Students will monitor and revise Personal Plan of Study written before high school. Course description booklets, transcripts, assessments and personal interest will be used for continued review and revisions of Personal Plan of Study. By the end of 12th grade, plans will have been revised and fully implemented for lifelong learning.

SUGGESTED UNIT TIMELINE: 6 Lessons

Career Development

X

- A. Students will acquire the skills to investigate the world of work in relation to knowledge of self and to make informed career decision.
- B. Students will employ strategies to achieve future career goals with success and satisfaction.
- C. Students will understand the relationship between training and the world of work.

Show Me Standards: Performance Goals (check one or more that apply)

Goal 1: Gather, analyze and apply information and ideas

- 1. Develop questions and ideas to initiate and refine research
- 2. Conduct research to answer questions and evaluate information and ideas
- 4. Use technological tools and other resources to locate, select and organize information
- 5. Comprehend and evaluate written, visual and oral presentations and works
- 6. Discover and evaluate patterns and relationships in information, ideas and structures
 - 7. Evaluate the accuracy of information and the reliability of its source
 - 8. Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation
 - 10. Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers

	Goal 2: Communicate effectively within and beyond the classroom
	1. Plan and make written, oral and visual presentations for a variety of purposes and
	audiences
X	2. Review and revise communications to improve accuracy and clarity
Λ	3. Exchange information, question and ideas while recognizing the perspectives of
	others
	6. Apply communications techniques to the job search and to the workplace
	7. Use technological tools to exchange information and ideas
	Goal 3: Recognize and solve problems
	1. Identify problems and define their scope and elements
	5. Reason inductively from a set of specific facts and deductively from general
X	premises
Λ	4. Evaluate the processes used in recognizing and solving problems
	6. Examine problems and proposed solutions from multiple perspectives
	7. Evaluate the extent to which a strategy addresses the problem
	8. Assess costs, benefits and other consequences of proposed solutions
	Goal 4: Make decisions and act as responsible members of society
	1. Explain reasoning and identify information used to support decisions
	3. Analyze the duties and responsibilities of individuals in societies
	4. Recognize and practice honesty and integrity in academic work and in the
X	workplace
Λ	5. Develop, monitor and revise plans of action to meet deadlines and accomplish
	goals
	6. Identify tasks that require a coordinated effort and work with others to complete
	those tasks
	8. Explore, prepare for and seek educational and job opportunities

This lesson supports the development of skills in the following academic content areas. **Academic Content Area(s)** Specific Skill(s)

X	Communication Arts	 Speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization) Writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) Participating in formal and informal presentations and discussions of issues and ideas
	Mathematics	
X	Social Studies	4. Economic concepts (including productivity and the market system) and principles (including the laws for supply and demand)6. Relationship of the individual and groups to institutions and cultural traditions.

	Fine Arts	1. Process and techniques for the production,

exhibition or performance of one or more of the
visual or performed arts

Unit Essential Questions:

How do interests, strengths, and limitations change over one's lifetime?

Why do people's career choices change?

How does a person share his/her strengths and skills?

What influences what a person wants to do with their life?

Are career choices a decision or a journey?

Unit Measurable Learning Objectives:

The student will review and revise his/her Personal Plans of Study, noting changes in career interests and goals since last review was conducted.

The student will identify at least two personal, educational and/or training requirements needed for his/her career choice.

Students will demonstrate the importance of all jobs by writing a position statement with supporting details, which takes into account local and world implications; Career Paths / Clusters information; and respect for all work and workers.

The student will apply knowledge of self to develop information to be used for post-secondary applications.

The students will list the six steps to simplify college planning.

Unit Instructional Strategies/Instructional Activities:

- X Direct (Compare & Contrast)
- X Indirect (Problem Solving, Reflective Discussion)
- X Experiential (Simulations, Surveys)
- X Independent Study (Essays)
- X Interactive Instruction (Panels, Discussion, Think-Pair-Share, Cooperative Learning, Interviewing)

Unit Summative Assessment (acceptable evidence):

Summative assessment relates to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Each student will complete his/her Personal Plan of Study.

Students will fill out the post-secondary checklist, discuss the results, identify at least two postsecondary options and develop a transition plan for their current choice.

Brief Summary of Unit:

In this unit for $9^{th} - 12^{th}$ grades, students will learn and implement knowledge, skill and understanding that will enable them to apply self-knowledge to the process of planning for post-secondary options. This unit will provide students with information, resources and competence to enable them to become lifelong learners and advocates for themselves when facing change and/or opportunities for change.

Student Prior Knowledge: What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

How to prepare a Personal Plan of Study.

High school graduation requirements.

Use of personal transcript to evaluate current and future preparation for entrance into postsecondary options

Lesson Measurable Learning Objectives:

The student will review and revise his/her Personal Plans of Study, noting changes in career interests and goals since last review was conducted

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Students will reevaluate, assess (review/rethink), and revise/refine their Personal Plans of

Study, adding information regarding education and training needed for potential career goals as needed.

Lesson Preparation

Essential Ouestions:

How have I changed?

Engagement (Hook):

Open the panel by saying something like: "If I had known then (1957) that I wouldn't be able to buy a Ford Thunderbird on a teacher's salary, I would have saved and invested more money." Invite panel members to share their own "I wish I had known" experiences with the students.

Procedures

Instructor Procedures/Instructional Strategies: NOTE: This lesson has three segments. The panelists will be involved in the first two segments and may choose to leave after the

panelists will be involved in the first two segments and may choose to leave after the group conversations, OR they may choose to observe the remainder of the guidance lesson (with students' "permission"). The three segments are: the panel discussion (about 20 minutes); small group conversations between panelists and students (about 15 minutes); and time for students to review/ rethink/ revise/ refine their individual *Personal Plan of Study*.

- 1. Facilitate the panel discussion of community members. Panel members will communicate "things" they wish they had known prior to making their personal career choices (allot a maximum of 5 minutes for each person's narrative).
- 2. Divide class into small groups. "Assign" a panel member to each group. In the small groups students will be able to enter into more personalized conversations with the panel members. Encourage students to discover what panelist would have (or has) done to proactively counter the lacking or misinformation.
- 3. Distribute the students' Personal Plan of Study, career interest inventories and results (if available), high school graduation

Student Involvement/Instructional Activities:

- 1. Students will listen and formulate personal questions as the panel members share their "I wish I'd known" reflections.
- 2. In the small groups, students will engage in a conversation with a panelist. They will be encouraged to ask insightful and thought-provoking questions about the lack of and/or misinformation one realizes after being in the chosen profession.
- 3. Students will review their *Personal Plan* of *Study to* remind themselves of the plan they developed in 8th grade.

requirements (most current Missouri Department of Elementary and Secondary Education and local Board of Education requirements for all students), listings of the minimum entrance requirements for a variety of post-secondary education and training options, including, but not limited to colleges/ universities/ technical schools and a planning form to guide those students seeking immediate full-time post-secondary employment.

4. Consider students' privacy rights and district policy to determine the appropriate level of student interactions with others (peers and/or adults). Facilitate/guide students' review of their *Personal Plans of Study*.

- 5. When students have had an opportunity to review and revise/refine their current plans; they will write a note to you explaining the changes they are making. As the counselor reviews revised/refined Plans, make notes for follow-up with students via a classroom guidance lesson and/or scheduled Individual Planning sessions. Arrange for the copying of students' revised/refined *Personal Plan of Study* and return the copy to the student.
- 4. Students will use the information gained during the panel discussion; their completed (and tentative) Personal Plan of Study; their career interest inventory results (if available), the provided listing of minimum entrance requirements for a variety of colleges/ universities/ technical/proprietary schools or plan for immediate post-high school employment to help them review/ rethink/ refine/revise their Personal Plan of Study.
- 5. Students will make changes to their plans as needed and will write a note to the counselor explaining the changes.

Teacher Follow-Up Activities

Encourage teachers to share what they wish they had known before starting their job as a teacher.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Students will identify job requirements/expectations of their personal career choices and compare these with their own personal preferences via completion of the "Occupational Trial Plan" and their individual *Personal Plan of Study*.

Lesson Preparation

Essential Questions:

I've changed my mind about my career plans three (3) times in the past month! I'm exploring the occupations as I consider them. How in the world can I ever keep track of everything I discover about the occupations and me?

What does the Occupational Trial Plan have to do with my career choice?

Engagement (Hook):

So much to do! So little time!! Counselor explains his or her completed Occupational Trial Plan (make several copies to pass around for students to see)

Procedures

Instructor Procedures/Instructional Strategies:

- 1. Counselor: Complete your personalized Occupational Trial Plan and make several copies of it prior to class. Explain the processes you used as you responded to each question. Encourage students to look at your plan as they complete their own. Distribute blank "Occupational Trial Plan" Activity Sheets to students.
- 2. Monitor and encourage students' completion of their "Occupational Trial Plans."
- 3. Divide class into pairs to explain and clarify completed plans.
- 4. Review with students their new findings and any new career decisions about their proposed careers that they have made or are considering. This may be done as a classroom guidance lesson or as a part of the Individual Planning strategies.
- 5. After you have had an opportunity to review their plans, return Personal Plans of Study to students for inclusion in their "Important Papers" storage system (If your district has not adopted a plan/procedure for students to use to save "Important Papers", encourage students to develop their own).

Student Involvement/Instructional Activities:

1. Following presentation of the counselor's "Occupational Trial Plan, students will create their own plans.

- 2. Students ask clarifying questions as they respond to the questions
- 3. Students will explain and clarify their responses as they share their plans with a peer. During discussions with peerpartner, students will discuss/explain areas of certainty and areas of uncertainty.
- 4. Prior to counselor-review of students' "Occupational Trial Plans", develop questions to be discussed with counselor.
- 5. Students will lead the review of their "Occupational Trial Plans" by proposing questions and supporting choices as counselor helps students explore broader possibilities (if necessary). Students will store "Occupational Trial Planner

Teacher Follow-Up Activities

The Occupational Trial Plan

The "Occupational Trial Plan" will help you organize your discoveries about the world of work and you! During the next few years you will be making choices that will influence your life satisfaction, success, and stability. Complete this plan thoughtfully and you'll be better prepared than many to make the hard decisions that lie ahead of you!

Grade Level/Course Title: 9-12/CD 7-8-Gr9-12-Unit1 Course Code: Career Development

COURSE INTRODUCTION:

Career Development

The units in career development are designed to assist students in developing the knowledge and skills to make sound decisions about their educational and career goals. Recognizing the career development is a life-long process, these units build around the concepts of career awareness in the elementary grades, career exploration at the middle school level, and planning and decision making at the high school level. The ultimate outcome is that all students will develop and maintain a rigorous and relevant personal plan of study that will guide them into a successful post-secondary transition. The three major areas covered are:

Applying career exploration and planning skills in the achievement of life career goals.

Major Points: This area includes individual planning skills as vital learning for K-12 students. Career exploration and planning skills are developmental in nature and build upon each of the other standards. Career exploration emphasizes the dignity and necessity of all work and workers; the role of preferences and skills in job satisfaction and the concept of a "balanced life." Included in this Standard will be the interrelationship of all parts of one's life (e.g. family, community, work, and personal interests) across the life span. The concept of life career planning emphasizes the integration of knowledge and understanding of skills required in the world of work and daily living.

Knowing where and how to obtain information about the world of work and post-secondary training/education.

Major Points: This area is intended to help K-12 students know how to seek information that is credible, age-appropriate, and unbiased. Students will be provided with systematic and sequential opportunities to learn about and understand the level of preparation required for various occupations (e.g., apprenticeships, career and technical education, 4-year/2-year college or university, and the military). Knowledge, skill and understanding will include the kinds of career information resources available (e.g., print/electronic/personal interviews) and how to access the information independently. The purpose is to add to the individual's ability to be an advocate for self.

Applying skills for college and career readiness and success.

Major Points: College and career readiness is considered to be developmental in nature and includes helping K-12 students develop individual skills of: responsibility taking, dependability, punctuality, integrity, self-management, effort, respect for other's differences and the ability to work effectively as a team member. It is evident that college and career readiness requires both academic and personal/social skills in order to be successful in the classroom and in the workplace.

UNIT DESCRIPTION: Goal Setting

In this unit for 9th-12th grades, students will learn (and implement) knowledge, skill and understanding that will enable them to apply self-knowledge to the process of planning for post-secondary options, to find, evaluate and use career information and to define and understand the role of employment readiness skills in obtaining a job.

SUGGESTED UNIT TIMELINE: 4 Lessons

Lesson Preparation

Essential Questions:

How do interests and goals fit together?

Engagement (Hook):

Counselor shares by modeling his/her own interests by sharing a completed interest inventory and how the results fit his/her career choice.

Procedures

Counselor explains the link of measured interests to his/her own career and how careers link to one another (e.g. linkages within each of the 6 Career Paths and 16 Career Clusters). The interest inventory you choose may be a "pencil and paper" version or an on-line version. Hand out Student Involvement/Instructional Activities: Students observe counselor's information and refers to own career clusters' sheet

	selected interest inventory and explain directions OR direct students to online inventory.		
2.	Counselor observes and helps students complete inventories.	2.	Students may be using a pencil/paper inventory or an online inventory. They will be reading directions. Students complete surveys.
3.	Help students score and find careers that match their interests.	3.	Score and find career/interest matches.
4.	Have students share results with a partner. (Be sure to consider students' privacy rights – review school board policy and allow students the choice of whether or not to share results with another person.)	4.	Students work with a partner and share their results with each other (as appropriate).
5.	As students review the results of the Interest Inventories, have them identify at least one career of interest. Partners will interview each other about their career of interest. Instruct students to introduce partners to the class as a worker in the career and career cluster of their partner with the class.	5.	Students will take turns sharing their partner's choices.

Lesson Measurable Learning Objectives:

The student will complete a job shadowing experience.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

The student will complete forms necessary to participate in job shadowing, compete a job shadowing experience and develop a reflection/projection narrative about the implications of job-shadowing experience for the future.

Lesson Preparation

Essential Questions:

How does a job shadowing experience affect a person's job choice?

Engagement (Hook):

Use media (i.e. music, movie clips, etc.) to facilitate discussion on job shadowing experiences.

Procedures

Instructor Procedures/Instructional Strategy: Note: This strategy is labor-intensive for counselors. The materials that accompany

this lesson will help you organize for the adventure.

- 1. Counselor uses media and/or other sources to engage students in a discussion about job shadowing.
- 2. The counselor asks students to think about their own interests related to jobs. Students are asked if they would like to know more about certain jobs.
- 3. The counselor discusses future plans for job shadowing. Job shadowing packets are distributed to the students and time is allowed for completion of forms

Student Involvement/Instructional Activity:

- 1. Students will learn what it means to job shadow.
- 2. Students respond to the counselor's questions.
- 3. Students will complete necessary forms and start search for job shadowing placement.

Teacher Follow-Up Activities

Teacher could ask students to share some of their experiences during job shadowing. Student could also write a paper on job shadowing experiences.

Counselor reflection notes (completed after the lesson)								

Counselor Information Sheet for Job Shadowing

Goal:

The goal is to have the student experience the world of work through job shadowing.

Role:

The role of the student during job shadowing will be to observe an employee for a short period of time to learn about the business, industry, or profession of the employee. The student witnesses firsthand the work environment, employability and occupational skills in practice, the value of professional training, and potential career options.

Students will:

- 1. Review the Job Shadowing Choices Checklist
- 2. Contact the host to set up a time and date for the job shadowing by using the Job Shadowing Choices Checklist
- 3. Receive and have completed:
 - a. Parental Consent to Participate Form
 - b. Transportation Form
 - c. Classroom Teacher Permission Form
- 4. Review Workplace Tips
- 5. Arrive on time
- 6. Dress appropriately

Students will report to (pre-determined) workplaces for a learning opportunity, to experience "real life" work in a career field.

During the job shadowing experience, the student observes his/her host, collects relevant information and asks questions (e.g. "What do you like about your job? What kind of skills or training do I need?")

Standards and Criteria for Success:

As a result of the job shadowing experience, the student will be expected to complete some of the following activities:

- 1. Write a thank you letter (REQUIRED)
- 2. Complete the Job Shadowing Reflection Form
- 3. Keep a journal describing the site, the people, the work, and the environment
- 4. Submit a written report on the job shadowing experience.
- 5. Make an oral classroom presentation or poster presentation on careers represented at the job-shadowing site.
- 6. Ask workplace employer/supervisor to complete a job shadowing feedback sheet regarding the student participant.

Workplace Tips

There are two general categories of factors that contribute to an employee's success at the workplace. First, employees must master a set of specific technical skills and experiences. Second, all occupations require general skills such as problem solving, communications and interpersonal abilities. During your job shadowing experience you will be introduced to employees using both technical and general skills. When you are at the workplace, think about these tips and what it takes to be a top employee.

Be honest.

Have a positive attitude. Be friendly, courteous, polite and cooperative with coworkers and clients.

Always be reliable and prompt. Customers and other workers are depending on you.

Notify the appropriate supervisor when you are going to be late or absent.

If you do not understand something, ask questions or ask for help. It is better to admit you are learning than to make a costly mistake.

Respond positively to constructive criticism.

Take responsibility for your actions.

Give your best effort at all times. If you have completed all your regular and assigned tasks, show initiative and seek additional work.

Challenge yourself to be a continuous, life-long learner.

Always be open to change.

Writing A Thank You Letter

Thank you letters are an important business courtesy. When you tell people how much you appreciate good things they have done, you reward them for their efforts and make a good impression about yourself.

It is important to thank your workplace host for the time and effort that has been given to help you in career exploration. The following is a model for a thank you letter.

Date (Month, Day, Year)

Your Workplace Host's Name Your Workplace Host's Department Street Address City, State, Zip

Grade Level/Course Title: 9-12 / CD 7-8 Gr9-12-Unit2

Course Code: Career Development

COURSE INTRODUCTION:

Career Development

The units in career development are designed to assist students in developing the knowledge and skills to make sound decisions about their educational and career goals. Recognizing the career development is a life-long process, these units build around the concepts of career awareness in the elementary grades, career exploration at the middle school level, and planning and decision making at the high school level. The ultimate outcome is that all students will develop and maintain a rigorous and relevant personal plan of study that will guide them into a successful post-secondary transition. The Three major areas covered are:

Applying career exploration and planning skills in the achievement of life career goals.

Major Points: This area includes individual planning skills as vital learning for K-12 students. Career exploration and planning skills are developmental in nature and build upon each of the other standards. Career exploration emphasizes the dignity and necessity of all work and workers; the role of preferences and skills in job satisfaction and the concept of a "balanced life." Included in this Standard will be the interrelationship of all parts of one's life (e.g. family, community, work, and personal interests) across the life span. The concept of life career planning emphasizes the integration of knowledge and understanding of skills required in the world of work and daily living.

Knowing where and how to obtain information about the world of work and post-secondary training/education.

Major Points: This area is intended to help K-12 students know how to seek information that is credible, age-appropriate, and unbiased. Students will be provided with systematic and sequential opportunities to learn about and understand the level of preparation required for various occupations (e.g., apprenticeships, career and technical education, 4-year/2-year college or university, and the military). Knowledge, skill and understanding will include the kinds of career information resources available (e.g., print/electronic/personal interviews) and how to access the information independently. The purpose is to add to the individual's ability to be an advocate for self.

Applying skills for college and career readiness and success.

Major Points: College and career readiness is considered to be developmental in nature and includes helping K-12 students develop individual skills of: responsibility taking, dependability, punctuality, integrity, self-management, effort, respect for other's differences and the ability to work effectively as a team member. It is evident that college and career readiness requires both academic and personal/social skills in order to be successful in the classroom and in the workplace.

UNIT DESCRIPTION:	Navigating Through the World of Wor	k

This unit helps students gain a working knowledge and understanding of their interests, of relevant and credible career exploration and planning resources, and ways to experience work roles. Students will use career inventories, career resources and job shadowing to explore their career interests. Students will interview and write an essay of his/her career interest.

SUGGESTED UNIT TIMELINE: One lesson per grade level

CLASS PERIOD (min.): 55-70 minutes each lesson

ESSENTIAL QUESTIONS:

- 1. How do interests and goals fit together?
- 2. How are careers different?
- 3. How does a job shadowing experience affect a person's job choice?
- 4. How does one obtain the job he/she wants?

Unit Summative Assessment (acceptable evidence):

Summative assessment relates to the performance outcome for goals, objectives and GLS's. Assessment can be question answer, performance activity, etc.

Students will identify their personality types and discuss the value of each type in the world of work.

Brief Summary of Unit:

Through this Unit, students will have opportunities to better understand how they relate to others. They will compare their school and community activities with their career goals and project what their life may be like in the future. Students will convey their understanding of exploration and planning in the achievement of their life career goals.

Unit Goals and Objectives:

The student will respect all work as important, valuable and necessary in maintaining a viable global society.

The student will understand social responsibility as it relates to the personal contributions one can make to society through one's work and non-work activities.

Student Prior Knowledge: What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Concept of the manner in which they relate to others

Understanding "respect" as it relates to people we don't know (e.g., workers in another part of our world).

An understanding of the term "global society"

Computer skills for research and composition of presentation.

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

The students will work in pairs or small groups to analyze and discuss the results of their "How I Relate to Others" Activity Sheet.

Lesson Preparation

Essential Questions:

What skills are necessary for the most effective interaction within group situations? How can I measure whether or not I have the necessary skills?

Engagement (Hook):

Before starting the activities of this lesson make the statement: "Ask not what your country can do for you, but what you can do for your country." Then ask "What does President Kennedy's 1961 statement have to do with you, your choice of activities now, and your work in the future? That is the question that underlies our work in this unit. We will be learning more about our inter-connectedness, and our responsibilities to ourselves, each other and our global society. Keep JFK's words in your mind as you consider your career choices and opportunities."

Procedures

Instructor Procedures/Instructional Strategies:

1. Students will be chosen to role-play group situation(s) that show effective and ineffective group interactions. Engage students in a group role-play activity followed by a discussion of effective and ineffective group interaction.

Student Involvement/Instructional Activities:

1. Students will participate in role-play or participate as observers.

2.	Counselor will distribute the "How I Relate to Others" Activity Sheet. Introduce the Activity Sheet and emphasize the concept of conducting a self-assessment of relationship skills. Review each section of the Activity Sheet and ask students to complete the activity.	2.	Students will complete the "How I Relate to Others" Activity Sheet.
3.	When students have completed the Activity Sheet, the counselor will facilitate a discussion of the activity sheet and students' responses with the group. One of the "prompts" might be: "What do you have to do differently in order to work more effectively with others?	3.	Students participate in discussion by talking about specific and/or general items.
4.	You may want to collect the activity sheets and save the results for students to review as a part of the 11 th grade unit 3 lesson: "Peer Review of My School and Community Activities." (This is another instance when a "storage system" for students' work will be	4.	Students turn in their activity sheets.

Teacher Follow-Up Activities

useful!)

Students will write a one-page paper discussing what they learned about themselves and how they will use the information to improve their relationships with others.

Counselor reflection notes (completed after the lesson)				

How I Relate To Others

This form will help you think about various aspects of your relationships with others and your skills in-group situations. It gives you a chance to set your own goals for development. The steps for using this form are:

- 1. Read through the list of activities and decide which ones you are doing all right, which ones you should do more and which ones you should do less. Mark each item in the appropriate place.
- 2. Some goals that are not listed may be more important to you than those listed. Write such goals in the space provided below each subsection.
- 3. Go back over the whole list and circle the numbers of the **three** or **four** activities which you will work to improve at this time.

My Projected Auto-Biography

Imagine that you are a biographer-turned-autobiographer. You are writing about your life 30 years from now. Use the projections you wrote on your timeline to help you anticipate your life in 30 years. What contributions will you make in your own community, and to the global society? By being your own auto-biographer, you will create a clearer vision about where you want your life to go, and identify possible pitfalls and stumbling blocks that might prevent you from getting there – and what you will do to "work around/over/under" the pitfalls/stumbling blocks.

Lesson Measurable Learning Objectives:

Students will show they understand their own personality type and how it relates to career choice and personal/social relationships by group discussion and completing worksheet.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Students will identify their personality types and discuss the value of each type in the world of work.

Lesson Preparation

Essential Ouestions:

What careers are important in maintaining a global society?

Engagement (Hook):

Go through the 4 areas (I/E; S/N; T/F; J/P) of the Myers/Briggs Type Indicator and have students stand on a line where they feel they fit. Put the continuum on the board.

Procedures

Instructor Procedures/Instructional Strategies: Instructor Procedures:

1. Counselor hands out books and asks students to read through each characteristic and make sure they came up with the correct personality type.

- 2. Counselor may record each student's type while students read about their type.
- 3. Counselor will lead a discussion on types, using the plotted types on the board.
- 4. Counselor will review the material in chapter 6 that will explain the behavior of each type.
- 5. Counselor will instruct students on how to fill out the "10 Steps to Creating a Personal Career Plan" worksheet.
- 6. Counselor will make copies of worksheets and return originals to students.
- Conduct a discussion on how all personality types and careers are valuable in a global society.

Student Involvement/Instructional Activities:

- 1. Students will read page 10-30 to verify their type and write their type on their worksheet. They will plot their type on the board using the chart on page 67. (May use a large piece of paper and record several classes on one with students writing their names.)
- 2. Students will read about their particular type/temperament. (Pages 32-64)
- 3. Students will declare their types/temperaments.
- 4. Students will listen and read along.
- 5. Students fill out worksheet and return to counselor.
- 6. Students will be able to sign up for a small group of their type to discuss career options if interested.
- 7. Students participate in discussion.

Teacher Follow-Up Activities

Teacher may choose to use the information about students' personality types to group students for future group projects.

Counselor reflection notes (completed after the lesson)

Counselor will collect worksheets and make copies for the student's portfolio and return originals to the student for their career research. Give the students time to research and return to the class to discuss any findings. Meet individually with students who are still having difficulties narrowing it down or making a decision.

EExtroverts

Are energized by being with others

Like being the center of attention

Act, then think

Tend to think out loud

Are easy to "read" or know; share personal information freely

Talk more than listen

Communicate with enthusiasm

Respond quickly; enjoy a fast pace

Prefer breadth to depth

Introverts

Are energized by spending time alone

Avoid being the center of attention

Thinks things through inside their heads

Are more private; prefer to share personal information with a select few

Listen more than talk

Keep their enthusiasm to themselves

Respond after taking the time to think things through; enjoy a slower pace

Prefer depth to breadth

SSensors

Trust what is certain and concrete

Like new ideas only if they have a practical application

Value realism and common sense

Like to use and hone established skills

Tend to be specific and literal; give detailed descriptions

Present information in a step-by-step manner

Are oriented to the present

N Intuitives

Trust inspiration and inference

Like new ideas and concepts for their own sake

Value imagination and innovation

Like to learn new skills; get bored easily after mastering skills

Tend to be general and figurative; use metaphors and analogies

Present information in leaps, in a roundabout manner

Are oriented toward the future

TThinkers

Step back; apply impersonal analysis to problems

Value logic, justice, and fairness; one standard for all

Naturally see flaws and tend to be critical

May be seen as heartless, insensitive, and uncaring

Consider it more important to be truthful than to be tactful

Believe feelings are valid only if they are logical

Are motivated by a desire for achievement and accomplishment

Feelers

Step forward; consider the effect of actions on others

Value empathy and harmony; see the exception to the rule

Naturally like to please others

May be seen as overemotional, illogical, and weak

Consider it important to be tactful as well as truthful

Believe any feeling is valid

Are motivated by the desire to be appreciated

JJudgers

Are happiest after decisions have been made

Have a "work ethic": work first play later (if there is time)

Set goal and work toward achieving them on time

Prefer knowing what they are getting into

Product oriented (emphasis is on completing the

task)

Derive satisfaction from finishing projects

ee time as a finite resource and take deadlines y

See time as a finite resource and take deadlines very seriously

Perceivers

Happiest leaving their options open

Have play ethic; enjoy now, finish later (if there is time)

Change goals as new information becomes available

Like adapting to new situations

Process oriented (emphasis is on how the task is completed)

Derive satisfaction from starting projects

See time as a renewable resource and deadlines as elastic

COURSE INTRODUCTION:

Career Development

The units in career development are designed to assist students in developing the knowledge and skills to make sound decisions about their educational and career goals. Recognizing the career development is a life-long process, these units build around the concepts of career awareness in the elementary grades, career exploration at the middle school level, and planning and decision making at the high school level. The ultimate outcome is that all students will develop and maintain a rigorous and relevant personal plan of study that will guide them into a successful post-secondary transition. The Three major areas covered are:

Applying career exploration and planning skills in the achievement of life career goals.

Major Points: This area includes individual planning skills as vital learning for K-12 students. Career exploration and planning skills are developmental in nature and build upon each of the other standards. Career exploration emphasizes the dignity and necessity of all work and workers; the role of preferences and skills in job satisfaction and the concept of a "balanced life." Included in this Standard will be the interrelationship of all parts of one's life (e.g. family, community, work, and personal interests) across the life span. The concept of life career planning emphasizes the integration of knowledge and understanding of skills required in the world of work and daily living.

Knowing where and how to obtain information about the world of work and post-secondary training/education.

Major Points: This area is intended to help K-12 students know how to seek information that is credible, age-appropriate, and unbiased. Students will be provided with systematic and sequential opportunities to learn about and understand the level of preparation required for various occupations (e.g., apprenticeships, career and technical education, 4-year/2-year college or university, and the military). Knowledge, skill and understanding will include the kinds of career information resources available (e.g., print/electronic/personal interviews) and how to access the information independently. The purpose is to add to the individual's ability to be an advocate for self.

Applying skills for college and career readiness and success.

Major Points: College and career readiness is considered to be developmental in nature and includes helping K-12 students develop individual skills of: responsibility taking, dependability, punctuality, integrity, self-management, effort, respect for other's differences and the ability to work effectively as a team member. It is evident that college and career readiness requires both academic and personal/social skills in order to be successful in the classroom and in the workplace.

UNIT	DESCRIP	TION:	Respecting	All	Work
------	----------------	-------	------------	-----	------

Through this Unit, students will have opportunities to better understand how they relate to others. They will compare their school and community activities with their career goals and project what their life may be like in the future. Students will convey their understanding of exploration and planning in the achievement of their life career goals.

SUGGESTED UNIT TIMELINE:4 Lessons

CLASS PERIOD (min.): 55-70 each lesson

ESSENTIAL QUESTIONS:

- 1. How do people get along?
- 2. How do people decide what to do with their lives?
- 3. How can a person make a contribution to the well-being and betterment of the local and global society?

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Students will develop a personal code of ethics and relate their personal code of ethics to school situations. Students will discuss steps they will take to resolve ethical issue at school and develop a personal plan to advocate for an ethical school culture.

Lesson Preparation

Essential Questions:

What are ethics?

What guides us when we don't know what to do in a difficult situation?

Why is it important to have ethical values on the job?

Engagement (Hook):

News clippings or video clip about a business issue that led (or could lead to) unethical decision-making (e.g., Martha Stewart, Enron, super-sized campaign contributions, inflation of stock value)

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:	
1. Discuss a current event in the news about ethical practices in business. Provide students with copies of the standards/codes of ethical practice for a variety of professions – include occupations you or the students may not ordinarily think of as having a code of ethics, e.g., exterminators.	Students will actively participate in the discussion.	

- 2. Discuss ethical issues as compared to legal issues.
- 3. Have students complete the *Personal Code* of *Ethics* Activity Sheet.
- 4. Instruct students to break into small groups and list behaviors that are common on most students' lists. Compare lists with school policy documents to determine similarities and differences between students' lists and the policy document(s).
- 5. Counselor writes a list on the board synthesizing the group lists into one classagreed-upon list. Again, compare with school policy documents. Discuss commonalities listed on the board.
- 6. Distribute *Code of Ethics* worksheet. Instruct students to use the *Personal Code of Ethics* Activity Sheet to complete the *Code of Ethics* worksheet independently.
- 7. In the same small groups, have students develop an advocacy plan for creating school policy that will promote an ethical school culture. Encourage the implementation of their advocacy plans.
- 8. Facilitate a large group discussion about using the ethical codes in a step-by-step decision-making process to resolve ethical conflicts. In small groups, provide the same school-related ethical dilemma to each group for discussion. Each group will explain the considerations and steps leading to actions that would resolve the dilemma.
- 9. Collect *Personal Code of Ethics* Activity Sheets to put in each portfolio or have students place in portfolio.

- 2. Students will actively participate in the discussion. Give examples at school.
- 3. Complete the *Personal Code of Ethics* Activity Sheet.
- 4. A volunteer from each group will write the behaviors on the board.
- 5. Students will develop a list of behaviors group members agree all students at their school should follow. They will then compare their group's list with policy documents and make a list of the standards of behavior that aren't included in the discipline policy.
- 6. Students independently complete *Code* of *Ethics* worksheet.
- 7. Students will develop an advocacy plan and describe it to the whole class.
- 8. Students will list the steps their group would take to resolve the ethical problem.

9. Students will place their *Personal Code* of *Ethics* Activity Sheet in a prominent place in their portfolios.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLSs. Assessment can be question answer, performance activity, etc.

Students will successfully complete application forms and checklists. Each student will develop a master document which will include the kinds of personal information most applications require.

Lesson Preparation

Essential Ouestions:

How does a person share his/her strengths and skills?

Engagement (Hook):

Activity: Show an application that has been poorly completed and ask, "What would you do with this application if you were a decision-maker in the admissions office (educational and training programs) or the human resources office (employers)?"

Procedures

Instructor Procedures/Instructional Strategies:

- 1. Lead a discussion about correct and incorrect elements of an application.
- 2. Provide students a blank application form (for instructional purposes, use a form that is easy to complete) and project blank application on board. Section by section, instruct students on all aspects of completing the sample application correctly.
- 3. Counselor will provide copies of three postsecondary institution applications and three

Student Involvement/Instructional Activities:

- 1. Students will learn correct and incorrect elements of an application.
- 2. Students complete each section of the application and ask clarifying questions.

3. Students will review the information requested and independently complete

Lesson Preparation

Essential Questions:

How do people share their strengths and skills with others?

Engagement (Hook):

Enter class with a folder full of resumes. Start sorting the resumes into two categories in front of the students, ones that an employer would consider and those that would be thrown away.

Procedures

Instructor Procedures/Instructional Strategies:

- 1. Ask students: "What makes the difference between a resume that is considered and one that is thrown away? We're going to explore ways to develop resumes that attract a potential employer to the paper you." Counselor hands out sample resumes.
- 2. Have students get into groups of 3 or 4. Tell them to review the sample resumes as if they were employers and group the resumes into ones that would be considered and ones that would be rejected. When they have grouped the resumes, ask them to review each group and identify positive and negative characteristics.
- 3. Instruct students to utilize the positive characteristics of good resumes to develop a checklist for their own resumes.

Student Involvement/Instructional Activities:

- 1. Students contribute ideas about criteria for ratings.
- 2. Students will review the sample resumes, group them into ones that would be considered and ones that would be rejected and develop a group list of positive and negative characteristics.

Grade Level/Course Title: 9-12/CD9-Gr9-12-Unit 1 Course Code: Career Development

COURSE INTRODUCTION:

Career Development

The units in career development are designed to assist students in developing the knowledge and skills to make sound decisions about their educational and career goals. Recognizing the career development is a life-long process, these units build around the concepts of career awareness in the elementary grades, career exploration at the middle school level, and planning and decision making at the high school level. The ultimate outcome is that all students will develop and maintain a rigorous and relevant personal plan of study that will guide them into a successful post-secondary transition. The three major areas covered are:

Applying career exploration and planning skills in the achievement of life career goals.

Major Points: This area includes individual planning skills as vital learning for K-12 students. Career exploration and planning skills are developmental in nature and build upon each of the other standards. Career exploration emphasizes the dignity and necessity of all work and workers; the role of preferences and skills in job satisfaction and the concept of a "balanced life." Included in this Standard will be the interrelationship of all parts of one's life (e.g. family, community, work, and personal interests) across the life span. The concept of life career planning emphasizes the integration of knowledge and understanding of skills required in the world of work and daily living.

Knowing where and how to obtain information about the world of work and post-secondary training/education.

Major Points: This area is intended to help K-12 students know how to seek information that is credible, age-appropriate, and unbiased. Students will be provided with systematic and sequential opportunities to learn about and understand the level of preparation required for various occupations (e.g., apprenticeships, career and technical education, 4-year/2-year college or university, and the military). Knowledge, skill and understanding will include the kinds of career information resources available (e.g., print/electronic/personal interviews) and how to access the information independently. The purpose is to add to the individual's ability to be an advocate for self.

Applying skills for college and career readiness and success.

Major Points: College and career readiness is considered to be developmental in nature and includes helping K-12 students develop individual skills of: responsibility taking, dependability, punctuality, integrity, self-management, effort, respect for other's differences and the ability to work effectively as a team member. It is evident that college and career readiness requires both academic and personal/social skills in order to be successful in the classroom and in the workplace.

UNIT DESCRIPTION: Getting a Job	SUGGESTED UNIT TIMELINE: 5 Lessons

Unit Assessment (acceptable evidence):

Summative assessment relates to the performance outcome for goals, objectives and GLE's. Assessment can be question answer, performance activity, etc.

Students will gain insight in order to complete an "Action Plan for Maintaining Who I Am" worksheet.

Brief Summary of Unit:

The maintenance action plan provides students with an activity to show their previous years of personal growth and a plan to maintain positive growth.

Unit Goals:

To encourage the development and maintenance of a positive self-concept in an ever changing world.

Student Prior Knowledge: What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Knowledge of their individual roles for family, school, work and community Skills to maintain and improve their self-concept

Recognition of personal ways for the individual to contribute as a member of their community

Lesson Preparation

Essential Questions:

Why is it important for teenagers to have a positive self-concept?

Why is it important for you to balance your personal, academic, and work roles?

How do people make the world a better place?

Engagement (Hook):

Begin an in-depth discussion by juggling 3 tennis balls. Explain that each ball represents a specific area of their life (i.e. Self-Concept, School Community, and Responsibilities). Begin juggling the balls and explain to the students that sometimes all three areas of their lives

operate smoothly.

Drop one of the balls and explain to the students that sometimes one area of their lives may seem to be out of control or going poorly, but the other two areas can still be okay. Continue to juggle the other two balls.

Drop another ball and explain to the students that sometimes two areas of their lives may seem to be out of control or going poorly, but there is still one area that they can concentrate on that is going okay. Continue to toss one ball.

Drop the last ball and explain to the students that sometimes all areas of their lives may seem to be out of control or going poorly.

A variation of this activity is using paper, which is neatly organized into three stacks. Explain to the students that sometimes all three stacks are perfectly aligned and all three areas of their lives operate smoothly.

Blow/throw one of the stacks into the air and explain to the students that sometimes one area of their life may seem to be out of control or going poorly, but the other two can still be going okay. Point to the other two neatly stacked piles of paper.

Blow/throw another one of the stacks into the air and explain to the students that sometimes two areas of their lives may seem to be out of control or going poorly, but there is still one area that they can concentrate on that is going well. Point to the last neatly stacked pile of paper.

Blow/throw the last stack of paper into the air and explain to the students that sometimes all areas of their life may seem to be out of control or going poorly.

Use either hook to lead into explaining to the students that high school is a place where all areas will need to be juggled in order to have the best experience possible. Work with them as large groups, small groups or individuals to give them skills, ideas or opportunities to juggle all three areas successfully.

Procedures

Instructor Procedures:

1. Handout the "Self-concept Checklist" worksheet. One area that will be impacted entering high school is your self-concept. Meeting new friends, experiencing peer pressure, trying to "fit in" are all issues 9th graders may go through. Explain that the self-concept checklist will help increase their self-concept. Allow students time to complete the checklist. Discuss responses and or collect them after the class period for

Student Involvement:

formative evaluation.

- 2. After discussing possible responses, explain to the students that there are ways to improve their self-concept as well as maintain it. Allow them time to complete the "Improving Your Self-Concept" worksheet. Discuss and or collect for formative evaluation.
- 3. Ask students what they are most looking forward to doing in high school. Discuss responses.

Ask students if they are aware of all the opportunities available to them in their new school community. Direct students to the "Clubs/Organization List". Let them know about all the different opportunities they have to be involved with.

Discuss the benefits of more friends (new friends), sense of belonging, school pride, learning new things, taking risks, organizing time and responsibilities and increased positive self-concept. Ask students to check or circle clubs they may be interested in learning more information about or joining.

4. Discuss and examine the different roles students have and the responsibilities of those roles. Pass out "Roles: How do They Impact Me and for What Am I Responsible" worksheet.

- 2. Students will complete the "Improving Your Self-Concept" worksheet. Discuss ways for developing or maintaining a positive self-concept.
- 3. Students respond to questions Discuss benefits to joining clubs Checkmark or circle clubs they may be interested in joining.

4. Students will identify how each role has shaped their self-concepts and list at least one responsibility they have in each role.

Teacher Follow-Up Activities

Teachers could identify students that are still projecting a negative self-concept and refer them to the counselor.

Communication Arts teachers could assign a paper/essay pertaining to the roles and responsibilities that students have in their lives.

SELF-CONCEPT CHECKLIST

Having and maintaining a positive self-concept is a life long skill. Individuals with negative self-concepts may get involved with unhealthy life choices such as drugs and criminal activity.

Below is a list of statements. If the statement describes a positive self-concept characteristic, place a checkmark in the column entitled POSITIVE. If the statement describes a negative self-concept characteristic, place a checkmark in the column titled NEGATIVE.

If you believe the statement describes your own self-concept, place a checkmark in the column titled ME.

STATEMENT	POSITIVE	NEGATIVE	ME
Fear change or trying new things			
Takes responsibility for ones own actions and mistakes			
Able to take charge and show leadership when necessary			
Awareness and acceptance of one's own strengths and weaknesses			
Unable to show leadership			
Tends to follow others			
When victimized remains a victim and does not overcome the situation			
Accepts change			
Eager to try new things			
Has self-respect and self-confidence			
Always criticizes self			
Finds blame in others			
Depends upon approval from self and not others			
Tends to see negatives in people and situations

Essential Questions:

How would a positive self-concept help you grow?

Could this growth occur with a negative self-concept?

What suggestions could you give to someone who has a negative self-concept?

Engagement (Hook):

Demonstrate, with the scale and weights, how negative comments, activities, and situations weigh down a person's self-concept. How might someone's negative view of self be cancelled out by positive self-talk and positive comments? Students may participate by placing a weight for every negative comment and removing a weight for every positive comment.

Summative Assessment: Completion of Action Plan

Lesson Preparation

Essential Ouestions:

Why do we need a positive self-concept?

How do people balance their world?

How do people make the world a better place?

Engagement (Hook):

Ask students (12th) how many have any personal possessions like a car, computer, ipod, etc. After assessing how many have possessions like this, discuss what types of things have to be done to them in order to keep them running in top shape.

It may be easier to keep the focus on a car at this point.

Discuss with the students that in order to keep their car or other possessions running in top shape, they have to be maintained.

Ask students what happens to their car when they do not keep it maintained.

Transition into the maintenance of their personal self-concept. Their self-concept is something that needs to be maintained. If it is not maintained, they can expect similar issues to those of not keeping their personal possessions maintained.

Procedures

Instructor Procedures:

- 1. Pass out to each senior their "Action Plan for Maintaining Who I Am" assessment. Explain to the students that this Action Plan is something that will help them keep their self-concept maintained and in good working order.
- 2. Set a due date for collection of the Action Plan. Inform students that this Action Plan will be placed in their Personal Guidance folder or Permanent Record.
- 3. It may help to have an example of an Action Plan to place on an overhead or in a PowerPoint so that students can see how other plans have been developed.

Student Involvement:

- 1. Students will work on completion of their personal Action Plan.
- 2. Students should write down the due date on their Action Plan.
- 3. Students view sample Action Plans in order to have a better understanding of what theirs should look like.

Teacher Follow-Up Activities

Teachers may choose to allow in class time for students to work on Action Plans.

Teachers may want to remind their students as to the due date of the Action Plans.

Teachers may also want to tie in an activity, project, or other homework in relation to the Action Plan.

Instructor will construct a story with a number of specific details and play the "Telephone Game" where each student hears and repeats the story to the next person.

Procedures

Instructor Procedures:

- 1. Instructor divides the group of students into pairs with each pair facing each other.
- 2. Instructor will distribute the "Listening Stems" activity sheet to each student. The instructor directs the speaker to talk to the listener for approximately 3 minutes, using the sentence stems as a stimulus. The instructor explains that the listener should actively listen. When the speaker is finished, the listener should

Procedures

Instructor Procedures:	Student Involvement:
Note: The specific instructions for this	
lesson may be found on the "Origins: A	
simple word game for use in human relations	
training "handout."	
In advance, decide which words will be used	
for each round. Copying the word lists for	
each round on different colors of paper (e.g.	
Round One on yellow paper—Round Two	
on blue).	
Choose three students to be judges and give	

each judge a set of instructions; put remaining students in groups of 5 - 6 people.

- 1. Put words/phrases for Round One face down on the table and inform students they will have 4 minutes per round. Start the timer with 4 minutes.
- 2. At the end of four minutes, students are instructed to put down their pens. Ask each group to read the answers for the first word. After each group has answered, read the explanation from the definition sheet.

Each judge records the score on his or her score sheet.

Continue activity with each word or phrase.

3. Closure: Have students do a two-minute private writing regarding their thoughts and feelings as they discussed the words. Ask students to share their thoughts. Encourage students to monitor their words to show respect for others.

- Students will thoughtfully participate in "Origins" as either group participants or judges. For each round, students will give the common usage and origins of the words or phrases.
- 2. Students must come up with an answer even if they have never heard of the word or phrase. The judges will assign the points for each round.

3. Students will complete a thoughtful 2 minute-writing in their journal. Students may volunteer to tell the class one of his/her thoughts.

Teacher Follow-Up Activities

Instructor gives students an opportunity to create other words that may have similar meanings as those expressed in the activity.

TEACHING TOLERANCE

Instructions for "Origins: A simple word game for use in human relations training"

Note to Instructor:

You need an inexpensive kitchen timer for this activity. Copying sheets on colored paper will make it easier for you to keep the question sheets for each round together. After handing out the instructions below to three randomly selected judges, the instructor does not need to do anything.

Instructions to Judges:

- 1. Put students in groups of 5-6 people.
- 2. Put questions for Round 1 face down at tables; start the timer with 4 minutes.
- 3. At the end of 4 minutes, tell the students to put down their pens. Ask each group to read its answer for 1. After each group has answered, read the answer from the definitions sheet. Each judge records the points on her/his score sheet. Continue doing this with each question. No one can challenge the judges' scores or ask to see the score sheets.
- 4. Repeat #2 with questions for Round 2, etc.
- 5. Add each judge's points on the board after each round and announce winners.

Instructions to Groups:

Each group will have 4 minutes for each round. For each round, give the common usage and origin of words or phrases on the sheet. You must come up with something even if you have no idea what it means. There are two possible points for the common usage and three possible points for the origin of the word or phrase. The judges will assign the points for each round.

ACTIVITY SHEET: *ORIGINS*: What do these words or phrases mean?

(Adapted from Sudie Hofmann's introduction to "Origins". http://www.tolerance.org/teach/activities/activity.jsp?ar=657)

The word game *Origins* reveals the history and prejudice of many words or expressions commonly used in the United States. We use these words or phrases everyday without thinking about their original meaning. If we knew the origin of the words, would we use them? This game will help you decide for yourself.

Following is a list of words – Describe their common usage and their origins (if you don't know the usage or the origin, make up something that seems "right").

General Rules: Three judges will be selected from the class; the rest of you will work in small groups. There will be two rounds (your instructor will tell you which words from the list are included in each round); during each round you will have four (4) minutes to work together and write the common usage and origin for the designated words (you MUST write an answer -- even if you have no idea of the meaning or origin—make one up!); at the end of four (4) minutes, groups will report their answers.

Earning Points: Two (2) possible points for the common usage; three (3) possible points for the origin of the word or phrase. Judges will award points.

At the end of each round, the judges will read the actual definitions and origins of the terms from the key.

Teaching Tolerance

www.teachingtolerance.org

DEFINITIONS: ORIGINS: What do these words or phrases mean?

1. GYPED

Common usage: One has been cheated.

Origin: Belief that Gypsies (Hindu people from East India & Balkan states) will cheat you or steal from you.

2. JEW YOU DOWN

Common usage: Hard negotiation to lower a price.

Origin: Belief that Jewish people are cheap and unethical in business. Longstanding literary references promote stereotypes that relate Jewish people to the practices of money changing usury.

3. MULATTO

Common usage: One African American parent and one White Parent.

Origin: Spanish word for a mule, which is the sterile offspring of a horse and a donkey. There is some evidence that it is also an Arabic word.

4. LAME

Common usage: A statement or behavior that is foolish or not well reasoned.

Origin: Belief that someone with a disability is incompetent of stupid.

5. HICK

Common usage: To describe something that is unsophisticated, outdated or stupid.

Origin: 16th century nickname for the given name Richard. Refers to a person who lives in the country.

6. EVIL EYE

Common usage: Evil or dirty look.

Origin: Belief in Europe and the Middle East that women could possess and evil eye, especially common in European witch trials.

7. IRON MAIDEN

Common usage: Tough, humorless woman.

Origin: Large metal enclosure coffin shaped and lined with iron spikes. Used during witch trials to torture and kill woman suspected of being witches.

8. INDIAN GIVER

Common usage: Taking back a gift.

Origin: Indigenous American communities had a different concept of ownership; the focus was on sharing or trading. Things given to the colonists by Native Americans may have been reclaimed from colonists if they did not reciprocate.

9. PADDY WAGON

Common usage: Police van.

Origin: Derogatory term for Irish people based on the Irish name of Padaig. Although, in the past, many police officers on the East Coast were Irish, some also contend that this was a cart used to round up Irish immigrants for disorderly behavior.

Missouri Comprehensive Guidance Programs:

Linking School Success to Life Success

10. RUSSIAN ROULETTE

Common usage: Potentially fatal game of dare with a revolver, which applies the concept of roulette.

Origin: Belief that Russian culture is fatalistic.

11. HAG

Common usage: Ugly or old woman.

Origin: Holy woman. Derived from Egyptian heq, meaning matriarchal ruler..

12. CHINESE FIRE DRILL

Common usage: All occupants of a car stopped at a traffic light quickly exit the car, run around the vehicle, and return to the car through the same door.

Origin: Belief that Chinese culture is chaotic ant the implication is that Chinese people are stupid and would run back into a burning building.

13. CHINESE HOME RUN/HARLEM HOME RUN

Common usage: Perceived unfair homerun because of a mythical short fence around the field.

Origin: Stereotype originated in California, based on the reality that Chinese labor was cheap and the expression eventually meant "cheap shot." Sportswriters have also referred to some homeruns as homer foo you, chow mein smash, and egg roll bingle.

14. JAY WALKING

Common usage: Violating pedestrian laws.

Origin: Belief that a jay, a person uneducated about city life, was incapable of crossing the street legally.

15. BURY THE HATCHET

Common usage: To settle one's differences..

Origin: A 14th century British song titled "Hong up then hatchet ant thi knyf." No historical usage by Indigenous people of North America.

16. BEDLAM

Common usage: Noise and chaos.

Origin: Term derived from Bethlehem, a London institution for people with mental disabilities.

17. CORNY

Common usage: Stupid or comical ideas or behavior.

Origin: Belief that rural people, particularly people from farms, are foolish and uneducated.

18. HOLD DOWN THE FORT

Common usage: Stay behind and manage the affairs of the office or home.

Origin: Protect the forts (military term for fortifying the building) of European American colonists against attacks by Indigenous people.

19. WELSH (VERB)

Common usage: Renege on an agreement or promise.

Origin: Nursery rhyme "Taffy was a Welshman, Taffy was a thief." Later extended to refer to English bookies who fled to Wales to avoid paying bettors.

20. LOW PERSON ON THE TOTEM POLE

Common usage: Used by non-Indigenous people to indicate that a person is low in seniority or significance in an organization.

Missouri Comprehensive Guidance Programs:

Linking School Success to Life Success

Origin: American Indian culture and positions of clan members on a totem, e.g. Bears on the bottom for strength and Eagles on the top for flight. Balance and equality were stressed.

21. INDIAN SUMMER

Common usage: Unusually warm days in the fall.

Origin: Belief that American Indians engage in deceit and trickery in their dealings with British colonists. Indian Summer is a false summer. Indian is used in several contexts to denote something that is cheap or false, witness Indian-giver and Indian-corn. Also supporting this idea is the British phrase St. Martin's Summer referring to the same meteorological phenomenon. St. Martin suggests something cheap or false, primarily because dealers in cheap jewelry gathered at the location of London's Church of St. Martin-de-Grand after it was torn down in the 16th century. St. Martin's day is 11 November, which often corresponds to the spell of warm weather. (From http://www.wordorigins.org)

22. DUTCH BARGAIN

Common usage: Appears to be a bargain, but is in fact a bad investment.

Origin: Belief that people from Holland are unethical and will attempt to sell something of little worth to unsuspecting customers.

23. DUTCH TREAT

Common usage: Each person pays for her/himself when out for dinner or entertainment.

Origin: Belief that originated in England and perpetuated the stereotype that people from Holland are uncharitable or cheap.

24. REDNECK

Common usage: A white male who has unenlightened, narrow, and racist views.

Origin: Belief that white men who do day labor (sunburned neck) hold prejudiced views and are uninformed about social issues.

25. GYPSY CAB

Common usage: A taxi cab which picks up illegal fares, i.e. is only licensed to respond to calls but illegally searches the streets for passengers.

Origin: Belief that gypsies (Rumanies – Hindu ethnic group of East Indians living in Balkan states and the U.S.) steal and engage in unlawful activities.

26. ON THE WARPATH

Common usage: Description of someone who is engaging in angry, confrontational behavior.

Origin: Reference to American Indians waging war.

Lesson Assessment (acceptable evidence):

Formative assessment relates to the summative assessment for unit (performance outcome for goals, objectives and GLEs). Assessment can be question answer, performance activity, etc.

After each role-play, the class will discuss the enactment of scenario and the effectiveness of choices made by participants. Each student will contribute a "Helpful Hint" for resolving conflict while respecting others. Hints will be compiled into a booklet and distributed to students.

Lesson Preparation

Essential Questions:

What does a quality relationship look like and how is it maintained?

What does it mean to utilize and accept personal responsibility in relationships with others?

Engagement (Hook):

Instructor will pose the following question: Have you ever done something you knew was wrong but you did it anyway due to peer pressure? (Instructor will self-disclose a personal experience from his or her past.)

Procedures

Instructor Procedures:

- 1. Instructor will provide the "Negotiating Skills Components" handout.
- 2. Instructor will select two students to role-play a mock argument in which one student is trying to convince the other to skip school in order to be accepted into a group.
- 3. Instructor will facilitate a discussion of the role-play and the negotiation skills utilized.
- 4. Instructor will direct students to work in pairs to create new role-plays involving peer pressure (use index cards).
- 5. Instructor will collect and randomly select scenarios and students to perform role-plays as time permits.
- 6. After each role-play, instructor will facilitate a discussion of the role-play and skills utilized.

Student Involvement:

- 1. Students review list of "Negotiating Skills Components" handout.
- 2. Students will volunteer to perform the mock role-play. Be sure to monitor the frequency of participation...to assure that no student monopolizes the time. Others students will watch and note which skills from the "Negotiation Skills Components" worksheet were utilized.
- 3. Students will participate in discussion of roleplay and skills utilized.
- 4. Each student pair will develop a role-play and will write the scenario on an index card.
- 5. Students will role-play selected scenarios incorporating skills from the "Negotiating Skills Component" handout.
- 6. Students will participate in discussion of roleplay the skills utilized and the relationship of role play to real-life conflict situations.

Teacher Follow-Up Activities

Instructor leads discussion on ways in which negotiation techniques can be used to avoid gang violence, and problems between friends, family, and school.

Counselor reflection notes (completed after the lesson)

Negotiating Skills Components

Lesson Assessment (acceptable evidence):

Formative assessment relates to the summative assessment for unit (performance outcome for goals, objectives and GLEs). Assessment can be question answer, performance activity, etc.

Student Self-Assessment: Students will review their responses to questions on handouts provided.

Lesson Preparation

Essential Questions:

What does a quality relationship look like and how is it maintained?

What does it mean to utilize and accept personal responsibility in relationships with others?

Engagement (Hook):

Everyone gets into conflicts, whether they are with a parent, teacher, friend, or stranger. Conflicts can be over anything, big or small. Conflicts can have positive outcomes. Think of a

time a conflict turned out well and a problem was solved, or a situation managed, or there was just a "clearing of the air." Conflicts can also result in negative feelings that leave us feeling bad about ourselves and others. Has either happened to you? Share your answer with a partner.

Procedures

	Instructor Procedures:		Student Involvement:
1.	Distribute "Managing Conflicts" worksheet.	1.	Students review "Managing Conflicts" worksheet, asking for clarification where needed. Role-playing may be used as a practice opportunity.
2.	Direct students to answer questions on the second page of the worksheet.	2.	Students ask and answer questions.
3.	Facilitate discussion regarding students' relationships and conflicts. The questions on the second page of the worksheet will serve as prompts to "break the ice."	3.	Students participate in discussion.
4.	Distribute and discuss "Alternatives for Solving Conflicts" handout.	4.	Students review and discuss "Alternatives for Solving Conflicts" worksheet.
Wl thi Wl	Direct students to answer the following (or similar) questions: hat did you learn about yourself during s activity? hich of the six alternatives would you e to try more often?	5.	Students respond in writing to the questions.
6.	Collect and review worksheets with student responses. Use as means to identify those who may be having difficulty negotiating conflict.	6.	Students will hand in responses to worksheets.

Teacher Follow-Up Activities

Journal and role-play alternatives for solving conflicts. It will reinforce learning for students if they are provided time to use the skills learned in the lesson.

Counselor reflection notes (completed after the lesson)

MANAGING CONFLICTS

Date:

Everyone gets into conflictswith a parent, teacher, friend, or stranger. Conflicts can be over anything,
big or small. Conflicts can have positive outcomes. Think of a time a conflict turned out well and a
problem was solved, a situation managed, or there was just a "clearing of the air." Conflicts can also
result in negative feelings that leave us feeling badly about ourselves and others. Has either happened to
you?

RESULTS OF CONFLICTS

Name:

When hassles are eventually resolved, there are three possible outcomes:

Both people feel hurt: Both people fight (physically or verbally). When this happens, the problem continues. There is no respect for self or others as a result. More than likely, there will be another fight.

One person feels hurt and the other gets his/her way: One person fights (physically or verbally). The other person quits or runs. The problem may be settled, but both people disrespect each other and themselves. The loser may seek revenge or take it out on someone or something else.

No one is hurt: No one fights or argues. Each says his or her position. Each person listens. Alternatives are used to settle the hassle. There is no "loser" or "winner" and everyone maintains respect for others and themselves.

THESE THINGS MAKE CONFLICTS WORSE

Violence (Physical or Verbal): Violence destroys any basis fro compromise and ruins friendships. It rarely deals with the real problem, and usually causes more problems. People don't often forget physical or verbal abuse.

Running Away: Running away prevents a person from really solving a problem. It just pops up again later. People who run away from problems lose the respect of others and themselves. It can become a habit. People who give in are usually taken advantage of by others.

PS2-Gr12-Unit1-Lesson7.doc Page 5 of 7 Created by G. Bollinger, K. Butler, M. Winston

Telling on Someone: Telling can make the problem worse. It makes others lose respect for you, and it can indicate you want others to solve conflicts and make decisions for you. However, there are times when telling IS appropriate. If a conflict has the potential of resulting in harm to you or to others it is important to get help from a responsible adult.

on someone when it was not appropriate. a. What was the conflict? b. What happened? How did you handle the situation? c. How did you feel about it? d. How would you handle it differently if you could do it over?

You and Conflict—Tell your story—Begin with a time you used violence, ran away or told

Alternative for Solving Conflicts

- 1. **Use "I" messages**—State the problem in terms of how it makes you feel; do not place blame on the other person. Example of an "I" message: "I am really hurt when you talk behind my back." Example of a "you" message that places blame: "You are so stupid when you talk behind my back."
- 2. **Listen closely**—Let the other person know you are willing to listen to his or her side. Example: "I'm listening," or "Go ahead; I'll listen."
- 3. **Get help**—Use others to help solve a problem. A third person can often bring a new perspective or solutions to a conflict.
- 4. **Make a deal**—Compromise. Being willing to give in to certain conditions if the other person is also willing can usually be done by making a suggestion.
- 5. Apologize—Let the other person know you are sorry the conflicts happened, whether you feel you are right or wrong. If you really feel as though you are wrong, you can gain respect from others by apologizing. Example: "We don't seem able to solve this, but I am sorry you feel badly about it. I do too."
- 6. **Cool it**—Dropping it is good for cooling off or avoiding no-win situations.

The Teaching Tolerance learning package "A Place at the Table" motivated the idea for this lesson. The message has broader meaning when the learning package is used; however, knowing that not everyone will have quick access to the learning package, the lesson was modified. You are, nonetheless, urged to "visit" the tolerance.org and teachingtolerance.org. websites. The sites provide access to a wealth of information about such topics as race, gender, ethnic, and cultural issues. For example, valuable information about "hate group" activity in the United States as well as free or inexpensive materials for teachers are accessible from the website.

"A Place At The Table" video, book, and lesson plans are available for free at the website listed below:

Lesson Preparation

Essential Questions:

Why is respect for others important?

Engagement (Hook):

Instructor will set a FORMAL place setting with multiple utensils. Students will be asked to identify the correct use for each eating/serving utensil.

Procedures

Instructor Procedures:

- 1. Instructor reviews the correct use of each utensil at the table and asks students to think about situations in which they felt uncomfortable or wanted a place at a table but access was denied. Lead the conversation toward the metaphorical meaning of the phrase "A Place at the Table."
- 2. Instructor will show the video "A Place at the Table" and discuss reactions.
- 3. Instructor directs students to research their racial identity/heritage in relationship to finding a place at the table.
- 4. Students will be asked to develop a plan for their involvement with an advocacy group.

Student Involvement:

- 1. Students will actively participate in the discussion posing as well as answering questions. Students will share their experiences in small groups. Following the small group sharing, students will be invited to share situations in which they have felt uncomfortable.
- 2. Students will watch the video "A Place at the Table" and share reactions.
- 3. Students will begin their research by interviewing their oldest living relative. As students seek information, they will listen for their families' struggles to find a place at the table. They will develop a creative expression of their heritage (write a short essay, poem, song, dance or rap about their findings).
- 4. Students will identify an advocacy group and develop a written proposal for involvement.

Teacher Follow-Up Activities
Instructor may have students write a research-based report on their cultural identity.

Brief Summary of Unit:

Standard PS2 focuses on helping students in grades K-12 know, understand and respect others in order to develop and maintain quality relationships. The learning includes developing an understanding of the similarities and differences of other and ways these similarities and differences contribute to working together in our diverse world. Students will learn about their roles in advocating for respect for all human beings.

Unit Goals:

- 1. Students will exhibit the interpersonal skills to maintain quality relationships.
- 2. Students will advocate respect for individuals and groups.
- 3. Students will utilize and accept personal responsibility in relationships with others.

Student Prior Knowledge: What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

- 1. Knowledge of interpersonal skills that will help maintain quality relationships
- 2. Knowledge of strategies that promote acceptance and respect of others within the global community
- 3. An awareness of personal responsibility in conflict situations

At the conclusion of the lesson, students will write a reflection on their experiences with cliques. The reflection will be a first person narrative that will include the following:

- The setting (time, place, members of the clique)
- Scenario (e.g. event describing the actions of the clique)
- Overall thoughts, feelings, and any subsequent action as a result of the event
- Advantages/Disadvantages of being a member of a clique
- Advice to younger students regarding clique membership

Lesson Preparation

Essential Questions:

How might cliques and bullying be related?

How and Where do we learn about quality relationships and how they are maintained? What does it mean to utilize and accept personal responsibility in relationships with others?

Engagement (Hook):

Instructor will read the story "The Clique" to students. (See attachment)

Procedures

Instructor Procedures:

- 1. Instructor distributes the story, "The Clique," as a referral source for students.
- 2. Instructor will lead a discussion by posing the following questions:
 - From whose point of view is the story written?
 - How might the perspective of an outsider change the story?
 - What are the problems in the story?
 - Why does Joyce feel pressured by Wanda in her group?
 - Why did Joyce enjoy her friendship with Saundra at first?
 - Is it ok to want to be alone sometimes?
 - What is peer pressure?
 - Have you ever been in a similar situation? How did you handle it?
 - If Wanda were telling the story, what would she emphasize?
- 3. Instructor directs students to write a reflection on their reaction to the story and their own experiences with cliques. (Instructor may want to use discussion questions above as prompts).

Student Involvement:

- 1. Students refer to the story as needed
- 2. Students will participate in discussion.

3. Students write a personal reflection on their reaction to the story and a short narrative describing their own experiences with cliques (see formative assessment for guidelines).

Teacher Follow-Up Activities

- Instructor reflects on how cliques have affected his/her life and leads discussion on how they have affected the lives of the students.
- Classroom teacher is encouraged to be aware of cliques and to address issues of exclusivity.

Counselor reflection notes (completed after the lesson)				

The Clique

Joyce has just moved to the city and feels lucky that she has found a friend, Saundra. They like to do the same things and have fun together, but each allows the other freedom to go her own way. Joyce also meets Wanda, the leader of a group of young women who seem to have a lot of fun. Joyce is accepted into the group and is swept along with Wanda and the camaraderie. Eventually, the group asks Joyce to give up her friendship with Saundra and do some things Joyce thinks are wrong. The group has planned to visit a shopping mall on Saturday and "take" a few things. When Joyce tells the others that she plans to stay home, Wanda tells her that she must go if she wants to stay in the group. What would you do if you were Joyce?

Ask students to write in their journals a reflection on what did they learned about "bursting stereotypes." What actions will each individual take to continue "bursting stereotypes."

Lesson Preparation

Essential Questions:

Why is respect for others important?

Engagement (Hook):

Walk into room popping balloons.

Procedures

Instructor Procedures:

Before starting the lesson, cut paper for sentence strips (paper or tag board cut to lengths approximately 2 inches wide and 12 inches long), and inflate about two dozen small balloons. Store inflated balloons in a plastic trash bag in a closet.

Or

Cover a classroom bulletin board with white paper. Spread colorful balloons over the bulletin board; use thumbtacks to attach each balloon. This bulletin board is sure to arouse students' curiosity if it is left up for a couple of days prior to the activity.

- 1. Divide chart paper or blackboard into two columns by drawing a vertical line down the middle of the chart, creating a two column chart. Write "man" at the top of one column and "woman" at the top of the other.
- 2. Ask students to write words or phrases that describe the qualities or characteristics of a man or woman under the appropriate column. Give students several moments to write down their ideas.

Examples:

- Man tough, don't cry, sports, breadwinner, strong, policeman, and doctor.
- Woman emotional, nurturing, weak, cries, shops, child care, nurse, and teacher.
- 3. Arrange students into small groups and ask them to share their lists. Give each group two minutes per column to brainstorm additional words or phrases.

Student Involvement:

- 1. Have students set up a piece of writing paper in the same way as you (i.e. two columns)
- 2. Students will write the words or phrases in what they view at the appropriate column

3. Students share their individual lists and brainstorm additional adjectives. A common consensus list will be developed by each team.

Bring the class back together to create a 4. Each group will share its consensus list master list of the adjectives students used to describe men and women. Write the adjectives on the chalkboard or chart paper. 5. Instructor asks some of the following 5. Students will participate in the discussion. questions: • Are you happy with the master list that we have created?
