

Generic VS Brand Name

1. Figure the unit price for each item to the nearest penny and put it on the line.
Then put a checkmark in the box that is the best buy!!
2. Total up the price per serving or oz to get a total spent for brand and for generic.
Remember, this is total per oz or serving. (Total up your answers on the line)

Product	Brand Name	Generic
Crunch berries cereal	\$2.98 for 21 oz _____	\$1.89 for 15 oz _____
