

Hardware Project

Instructions:

Spec out the following types of systems

- Gaming
- Laptop
- Desktop
- Server

Find at least 2 Examples of Supercomputers

- Get details on what they can do

Find at least 2 examples of wearable computers and record what they do and where to buy (and cost)

Create a presentation on three categories above. You will present this presentation to the class.

	Points Possible		
Item	1	2	3
Number of systems discussed	2	3	4
Number of super computers discussed	1	2	3
Number of wearable computers	1	2	3
Wearable information includes overview, cost, usage	Only some	On most of the items	On all of the items
Areas of the different systems described: Cost, purpose, description of system, where to purchase, pros and cons of the systems	1-2 areas on 1-2 systems	Only some areas (2-3) on 2-3 systems	All of the areas on all systems
Super computer information included: cost, where used, what used for	Some of the information	Most of the information	All of the information
Presentation professionalism (instructor's decision)	Somewhat professional	Mostly professional	Very professional
