

DESE Model Curriculum

GRADE LEVEL/UNIT TITLE: 11-12/Apply Effective Web Page Management Techniques

Course Code: 034393 CIP Code: 11.0103

COURSE INTRODUCTION:

Course Rationale: Rapid technological advancement by businesses to reach global markets, greater focus on industry certifications and national skill standards, expansion of responsibilities of office workers, portability of employee skills—all these increase the need for business students in career education programs to have skills in Web design and maintenance.

Course Description: This course deals with the use of Web programming languages (HTML, Javascript, etc.), graphics applications, and other Web authoring tools to design, edit, launch, and maintain Web sites and pages. Such topics as Internet theory, Web page standards, Web design elements, user interfaces, special effects, navigation, and emerging Web technologies will be included.

describes what needs to be copyrighted and what does not. Visit the U.S. Copyright Office and learn the answers to common questions about copyright law. 18 minutes. Grades 9-12.

Resources@MCCE - E DVD ROM 3.4, Plagiarism 2.0: Information Ethics in the Digital Age: Cambridge Educational, NEW YORK, NY, FILMS MEDIA, 2011. This program examines the behaviors that constitute plagiarism, their consequences, and the best ways to avoid them. Showing how accidental copying as well as willful plagiarism can occur, the program lays out the dangers of cheating, then illustrates the pitfalls of non-attribution and patch writing while showing how to properly attribute and paraphrase a lengthy quotation. Copyright, trademark, and intellectual property concepts are clearly discussed, in addition to potential sources of non-copyrighted material. Common citation formats (APA, MLA, Bluebook, etc.) are listed along with the suggestion that the student confer with his or her instructor about them. 22 minutes.

Resources@MCCE - G&C DVD ROM 53, CyberEthics: Cambridge Educational, LAWRENCEVILLE, NJ, FILMS MEDIA GROUP, 2008. This program helps students take the high road on the information superhighway and avoid the temptations of the fast lane, pointing the way toward an ethically sound Internet presence and lifestyle. Guidelines for the use of intellectual property are featured, with emphasis on the consequences of illegal downloading, copyright infringement, and plagiarism. Pornography, gaming sites, chat rooms, and online social networks are also discussed, helping viewers steer clear of antisocial and abusive activities, especially cyber-bullying. Comments from experts, as well as questions from peers who are confused about the fine points of cyber legality, serve to clarify central ethical principles. 14 minutes.
